

Boot Sizes

The hoof width (A) and hoof length (B) are decisive for determining the best-fitting Swiss-Galopper boot (see table on the right). Our standard form “SG” covers most hoof forms.

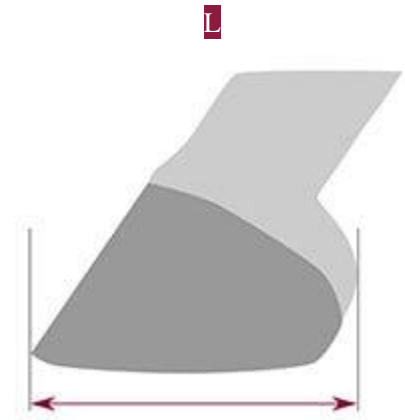

If your horse has a higher hoof heel and/or pronounced bulbs choose the SG-“L” model.

Hoof width in mm

Hoof length in mm

Hoof heel length in mm

| | | | |
|-------|---------|---------|-----------|
| SG3 | 108-113 | 112-123 | up to 135 |
| SG3-L | 108-113 | 112-123 | from 135 |

| | | | |
|--------------|---------|---------|-----------|
| SG4 | 114-120 | 119-130 | up to 145 |
| SG4-L | 114-120 | 119-130 | from 145 |
| SG5 | 121-127 | 126-137 | up to 149 |
| SG5-L | 121-127 | 126-137 | from 149 |
| SG6 | 128-135 | 134-145 | up to 165 |
| SG6-L | 128-135 | 134-145 | from 165 |
| SG7 | 136-144 | 143-156 | up to 175 |
| SG7-L | 136-144 | 143-156 | from 175 |
| SG8 | 145-155 | 154-165 | up to 185 |
| SG8-L | 145-155 | 154-165 | from 185 |

Types

SG3 Standard-Hoof-Boot

SG3-L Hoof-Boot for pronounced bale, higher hoof heels
