About lampwork

Lampwork is the art of using a blowtorch and glass rods to form shapes.

Typically steel rods are used to make beads. Once made they are gradually cooled in a kiln to make them strong.

I am an independant glass artist with many years experience in both making and teaching.

Order via my shop, or send me an email, WhatsApp or Facebook or Instagram. I can also be found on Etsy.
I need ½ a teaspoon of ashes per item.
Unused ashes will be returned with your items.
