

# BEEKEEPING

## FIELD DAY

### MARCHING FORWARD TO LOCAL SUSTAINABLE BEEKEEPING

Morning workshops will include a panel discussion of What does it mean to have "year round sustainability," there will be information provided to access continuing education through the Opportunities/developments in Great Plains Master Beekeeping Program. Other topics will include varroa mite issues, hive examination procedures, and pollinator habitat opportunities for local application.

The afternoon workshops will build on the morning sessions with hands-on hive work that will cover **varroa, hive examination, queen marking, and more!**
