Accessibility Statement

Scam Awareness & Fraud Education CIC
(Trading as "S.A.F.E.")

Last Updated: 16/05/2025

Scam Awareness & Fraud Education CIC (Trading as "S.A.F.E.") is committed to ensuring digital accessibility for people with disabilities. We are continually improving the user experience for everyone and applying the relevant accessibility standards.

Our Commitment

We are actively working to ensure that our website is:

- Fully navigable using a keyboard and screen readers.

- Accessible on mobile devices, tablets, and desktop screens.

- Designed with sufficient contrast for easy readability.

- Structured for logical navigation and intuitive browsing.

Accessibility Features

- **Screen Reader Compatibility:** All images contain descriptive alt text, and forms are properly labelled for screen readers.

- **Keyboard Navigation:** Users can navigate through all interactive elements without the use of a mouse.

- **Text Resizing:** Text is scalable up to 200% without loss of functionality.

- **Colour Contrast:** High-contrast colour schemes for readability.

Ongoing Improvements

We are committed to regular accessibility audits and improvements to address any issues that may arise. As new technology and design standards evolve, we will continue to improve our accessibility efforts.

Feedback and Contact Information

If you encounter any accessibility barriers on our website, please contact us:

- Email: accessibility@becomecybersafe.org

We aim to respond to accessibility concerns within **5 business days**.

Review and Updates

This Accessibility Statement is reviewed annually or when substantial changes are made to the operational structure of Scam Awareness & Fraud Education CIC.
