

How to add your image and text to the template for instagram

Add a Photo or Video

1. Open one (1) of the Canva templates to use.
2. In the left-hand menu, click Uploads.
3. Click Upload files and select the photo or video from your device.
4. Once the file has finished uploading, click it or drag it onto your design.

To Place a Photo or Video into a Frame

1. Drag the photo or video over the frame.
2. When the frame highlights, release the mouse button.
3. The content will automatically snap into the frame.

To Adjust the Photo or Video

1. Double-click the photo or video inside the frame.
2. Drag to reposition it within the frame.
3. Use the corners or zoom controls to enlarge or reduce the visible area.

Edit Text

1. Click directly on studio name box.
2. Highlight the existing text and type your own wording.

Save Your Design and Publish It on Instagram as a story or post

When you're finished, click Share or Download in the top-right corner to save your design as a PNG. Now post it. (you can also add a text caption to your post)
Remember to tag @haliburtonartandcraft
