PRO Wash Systems Deliver Higher Throughput and Lower Labor Costs

- Touch-Free, Friction, and Hybrid configurations
- Automatic operation reduces or eliminates labor overhead and hassles
- Real-time vehicle profiling capability with 16 profile presets
- Amp-sensing brush technology adapts to vehicle contours
- Designed for reliability, flexibility and ease of maintenance

PRO GANTRY WASH SYSTEMS

- Maximum cleaning at lowest cost-per-wash
- Ideal for small to mid-size fleets and commercial vehicle dealers
- Lowest soap, water, sewer and electrical cost per wash
- 4 to 10 minutes per wash

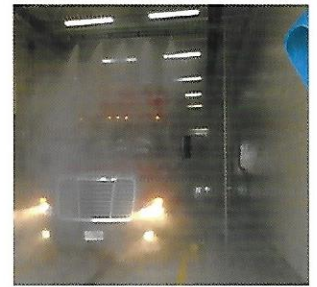

PRO DRIVE-THROUGH WASH SYSTEMS

- Efficient cleaning with highest throughput
- Ideal for larger fleets requiring higher wash volumes
- Easily adapted to existing wash bays
- 2 to 3 minutes per wash

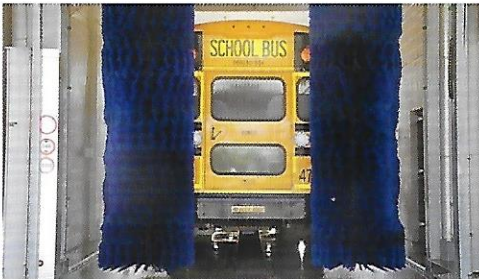

PRO COMBINATION WASH SYSTEMS

- Combines the best of both Drive Thru and Gantry
- Ideal for retail truck wash and large fleet operations
- Superior wash quality at high vehicle volumes
- As little as 10 minutes per wash

NOTE: Automated wash systems on sanitary sewer are in full environmental compliance.

Whether you are a fleet manager, a retail truck wash operator, or a commercial truck or bus dealer PRO Equipment has the right automated vehicle wash system to meet your specific needs and application.

Gross Revenue per Month for Retail Operators

RETAIL PRICE PER WASH	\$90	\$18,000	\$36,000	\$72,000	\$144,000
	\$70	\$14,000	\$28,000	\$56,000	\$112,000
	\$50	\$10,000	\$20,000	\$40,000	\$80,000
		8/200	16/400	32/800	64/1600
		WASHES PER DAY/ PER MONTH			

PRO Truck, Bus, and RV Wash Systems help fleet operators, commercial vehicle dealers, and retail truck wash operators to minimize or eliminate manual labor costs while increasing throughput (trucks per hour) by as much as 500%.

Cost Savings Study

A waste hauler washes 64 trucks once per week using manual labor, totaling 275 washes per month.

Current cost per wash with manual labor = \$53
 Monthly cost for all washes = \$14,575

After the company installs an automated wash system

Monthly wash system lease payment = \$2,880
 New cost per wash with automated system = \$9
 Monthly cost for all washes with lease payment = \$5,355

Monthly savings during 5 year lease term = \$9,220
 ROI time frame on machine = 16.3 months
 Monthly savings after 5 year lease term = \$12,100
 Total savings for the first 5 years = \$533,200
 Total savings for the first 10 years = \$1,279,200

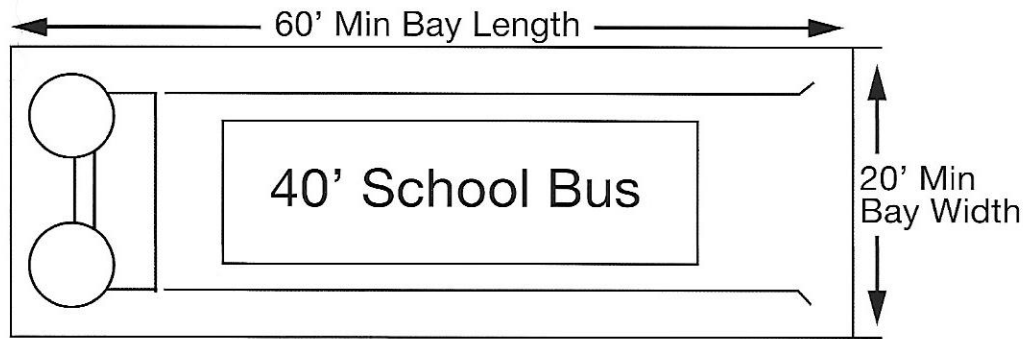

Automated Wash = No Labor
