

**Precautionary Statements:**

If spilled, surface will become extremely slippery. No Protective clothing is required. However, gloves and eye protection should be worn when handling and mixing. May cause skin and eye irritation in some individuals.

If product comes in contact with skin, wash thoroughly with soap and water.

If product comes in contact with eyes, flush for 15 minutes with pure water. If irritation persists, seek medical attention.

**NO KNOWN ENVIRONMENTAL HAZARDS.**

**Storage:**

Keep out of reach of children. Product should be stored in a cool dry location. Keep container lid tightly closed. Product can be stored outside if used within 2-3 months. Product will withstand temperatures as low as -20F. Shelf life of product is 1 year.

**Disposal:**

In case of spill, confine with any absorbent material. Use absorbent towels or pads to soak up spill. Then wash area with soap and water.

Note: Wear slip resistant shoes when handling spills.

Dispose at any sanitary landfill or other waste disposal site. (Follow all State and Federal disposal laws.)

**Warranty:**

Innovative Turf Solutions LLC makes no warranty, either expressed or implied, concerning the use of this product other than indicated on the label. Innovative Turf Solutions LLC recommendations for the use of this product are based on tests believed to be reliable. The use and application of the product is beyond the control of the manufacturer, therefore no guarantees or warranties are expressed or implied relating to the effectiveness or performance of the product.

# EnviroDust Suppress *DUST CONTROL*

**SUPERIOR DUST BED PENETRATION**

**EXCELLENT LATERAL MOVEMENT**

**WATER BASED PROTEIN COLLOID/POLYMER**

**Used to reduce all types of dust by moving horizontally binding dust particles together.**

**When applied, the dust absorbs the product and develops a pliable surface.**

**Net Contents: 5 Gallons unless indicated below.**

5 Gallons       55 Gallons       275 Gallons

**Chemical Description:**

Protein colloid/polymer, humectants

**Recommended Rates and Information:**

Rate	Water	EnviroDust	EnviroDust/1000 sq. ft.
1:30	2000 gal.	70 gal.	1.6 gal. (15 lb.)
1:20	2000 gal.	100 gal.	2.3 gal.(20 lb.)
1:15	2000 gal.	140 gal.	3.2 gal. (30 lb.)

Prior to applying product, the treated area should be graded, raked and dressed to the desired condition.

EnviroDust Suppress should be poured in the tank while water is being added to the water truck or spray apparatus. Product should be stirred prior to applying. Water trucks should not top off with water or product. Allow room for the material to mix while driving, by accelerating and then stopping a short distance thereafter will help mix the product.

A minimum of 2000 gallons of water should be applied per acre. The mixed product should be applied so that it saturates the area to be treated. If the soil is resistant to wetting, the product will perform to its potential if the area is lightly watered first then applied. If pre-watering is feasible on other areas, this will increase the performance and potential of the product.

Test a small area to determine your requirement. Your conditions will determine application rates and may require more or less product than the suggested rates. Allow the application to completely dry before use of by traffic.

Improper application will adversely affect performance.
