I understand that I should not have a chemical peel if I intend to continue to have excessive sun exposure. It has been explained to me that treated area will be more sensitive to the sun and other environmental factors as a result of the treatment and will require use of mineral sunscreen (DERMA-CEUTIX Anti-Aging SPF 35). _____.

I understand that this chemical treatment is expected to make the skin feel uncomfortable during the actual process but agree to inform the Aesthetician immediately if I have any concerns during the treatment and after I return home. _____.

For best results and minimizing possible reactions, I will be responsible for following a home care regimen given to me by my Aesthetician, including recognizing the importance of adhering to sunscreen and avoiding the sun/tanning booths and extreme weather conditions. I agree to use a moisturizer specifically recommended by my Aesthetician and I acknowledge that I have been informed of the possible negative reactions (intense erythema, welts, scabs, chemical burn) and the expected sequence of the healing process (dryness, irritation, redness, flaking and peeling of the skin).

If I may have additional questions or concerns regarding my treatment or suggested home care/post treatment care, I will consult my Aesthetician immediately _____.

In the event of a highly negative reaction and the involuntary absence of my Aesthetician, I am responsible for contacting my Primary Care Physician to seek treatment and possible medication to treat adverse reaction _____.
