## SCREEN SHIELDING

- Strong shatter resistant polycarbonate is an excellent value and is preferred by many local fire marshals, compared to cheap acrylic which can easily shatter.
- 100% Made in the USA.
- Shield made of optically clear strong 1/8" polycarbonate. Polycarbonate is highly durable and more suitable for daily use compared to acrylic "Plexiglass". The extruded frame and legs allow for the Screening Shield to be flat PACKed, for better shipping.
