Acoustic Music and DJ Services

Providing Acoustic Selections and DJ Services for Receptions, Cocktail Hours and Ceremonies

Hi,

I'd like to provide you with a unique and affordable entertainment option for your special day...

Why choose between a band and a DJ when you can have both?

With my Acoustic Cocktail Hour and DJ Services, I'll provide you with the perfect amount of acoustic guitar selections (chosen and approved by you in advance) while drinks or dinner are served... And then the DJ services you'll need for the rest of the night! You can get it all in one place for a low price. (I can even provide ceremony music services if needed.)

I look forward to making your reception a memorable one... and I understand that planning a wedding comes with many obstacles, so please feel free to contact me with any questions.

Congratulations!

Pat
