

SWFSA NEWS -

November 2017

Hi All.

It has been 6 months since the last newsletter. This was due to the content supplied would have been repetitive. This is not what I want the newsletter to be.

The committee has met every 3 months, keeping an interest on any issues that might affect are members.

We have revised some of the Specimen sizes for 2018. The changes are:-

Cuckoo Wrasse Boat and Shore All Areas 1lb 4oz

Tope Boat Area D 35lb

Black Bream Shore Area A 2lb 6ozs

Coalfish Boat, Areas B & C 12lb.

Cod Boat, All Areas 16lb.

Small Eyed Ray. Shore Area A, 9lb.

Scad, Boat, All Areas 1lb 4ozs.

Turbot Boat down by 2lb all areas.

FOTM Claim forms.

I have proposed that the amount of days after the end of the month that claim forms should be submitted is reduced to 10 days from 14. This will help with the timeframe for getting information correct for the Presentation night as this is always quite rushed.

As this is a constitution rule this can only be changed at AGM level so will be tabled at the AGM.

Trophies.

Can all trophy winners please make sure that they are returned by Mid December to Dee Weeding. I will also email all clubs sating this.

Dee's address can be found in the handbook or by visiting the contacts page on the website.

Website.

Still looking for your help in supplying content. We have took out another 2 year contract with the hosts. After that we will review to see if we renew again. I say this on every newsletter but the more info and photos you can supply the better it can be!

FISH RECORDERS REPORT

This years entries have increased numbers wise!

204 claims to date. This is against 187 by the same time last year

I have kept the website updated with the results.
