"Liberation is thus a childbirth, and a painful one. The man or woman who emerges is a new person, viable only as the oppressor-oppressed contradiction is superseded by the humanization of all people. Or to put it another way, the solution of this contradiction is born in the labor which brings into the world this new being; no longer oppressor nor longer oppressed, but human in the process of achieving freedom."

—Paulo Freire, *Pedagogy of the Oppressed* (p. 49)
