Important Notice: Read Before Using Royal Air Frames' STL and DXF Files for RC Plane Plans

The following disclaimer outlines the terms and conditions governing the use of the STL and DXF files provided by Royal Air Frames for the purpose of constructing remote control (RC) planes. By using these files, you agree to abide by these terms and accept the associated risks. Please read this disclaimer carefully before proceeding.

1. ****Use at Your Own Risk****: The STL and DXF files provided by Royal Air Frames are intended solely for hobbyist and personal use in creating RC planes. The use of these files involves inherent risks, including potential injury, damage, or loss. Royal Air Frames shall not be liable for any accidents, injuries, damages, or losses resulting from the use of these files.
2. ****Skill Level and Expertise****: Constructing and flying RC planes requires a certain level of skill and expertise. Users of these files are expected to possess adequate knowledge and experience in aerodynamics, mechanics, electronics, and piloting. Royal Air Frames is not responsible for any errors, omissions, or misconstructions due to inadequate skill or experience.
3. ****Safety Precautions****: Users are responsible for ensuring the safe construction and operation of RC planes based on the provided files. Always adhere to safety guidelines, follow manufacturer instructions for components, and take necessary precautions to prevent accidents and injuries.
4. ****Modifications and Alterations****: Any modifications or alterations made to the original design as presented in the files can affect the structural integrity, stability, and safety of the RC plane. Royal Air Frames recommends against making substantial changes without consulting experts in the field.
5. ****Warranty and Support****: The STL and DXF files are provided "as is," without any warranties, expressed or implied, including but not limited to fitness for a particular purpose or non-infringement. Royal Air Frames does not offer support, warranty, or technical assistance for the construction, operation, or performance of RC planes based on these files.
6. ****Intellectual Property****: These files are the intellectual property of Royal Air Frames. They are intended for personal, non-commercial use only. You may not redistribute, sell, or use these files for any commercial purposes without explicit written consent from Royal Air Frames.
7. ****Local Regulations****: Users are responsible for complying with all local laws, regulations, and restrictions pertaining to the construction, operation, and flight of RC planes. Royal Air Frames is not responsible for any legal consequences resulting from the use of these files.

By using the STL and DXF files provided by Royal Air Frames, you acknowledge that you have read, understood, and agreed to the terms and conditions outlined in this disclaimer. If you do not agree with these terms, do not use the provided files.

Royal Air Frames reserves the right to modify or amend this disclaimer at any time without prior notice.
