

MASTIC DISPENSER

MD12

Available sizes: 12 gal

Marathon's mastic dispenser is a self contained heated applicator designed to keep material at an effective temperature, to apply mastic. Larger capacity material vat than any other manufacturer and built with heavy duty steel construction made to last!

FEATURES

- Infrared heating tubes provide fast, well distributed heat to reduce hot spots and material degradation.
- Gate control located at the handle so operator can control material flow while applying mastic.
- Sloped inner material vat channels material towards chute opening.
- Large 6" chute opening dispenses mastic into a heavy duty 8" steel shoe.
- Fits underneath the discharge gate of all Marathon mastic machines.
