

Kidney Patient Support (Kidney Transplant Basic Information)

Type of Operations : Kidney Transplant

Cost of Operations : \$ 85,000.00 – Pakistan and Iran

Inclusion in the cost is the following:

1. Pre-operation Medical Test (this includes the basic medical test for patient and donor matching)
2. Dialysis
3. Doctor's Consultation Fee
4. Surgical Fee
5. Hospital Fee
6. After hospital medication for both patient and donor
7. One month's supply of Immunosuppressants

Not included in the cost is the following:

1. Airfare from your country of origin to the country of operations (vice-versa)
2. Hotel accommodation, food, and other personal expenses
3. Cost other than operation/surgery costs like your daily prescribed medicine, plasma exchange for patients with high anti-bodies, and special immunosuppressants

Cost, discounts, mode of payment, country of operation, and other details of the program will be discussed with you by our associates during voice or video calls.

Mode of payment: Can be discussed during the actual call

We require all patients to submit medical data like **CBC, BLOOD TYPING, HLA REPORT** (if available), and Arteriosclerosis report for Pre-evaluation. Patients with other medical conditions will be required to undergo medical tests, if the patient is considered high-risk during pre-evaluation are more likely not to be allowed to do the surgery.

If you have other pre-existing medical conditions, we require patients to inform us so necessary medical actions can be taken.

The length of the whole program from pre-operation to post-operation is about 2-3 weeks.

If you have other questions feel free to ask our associates during your voice or video calls.
