

What Do Those iPhone Symbols Mean?

A quick guide to the most common icons in your iPhone's status bar.

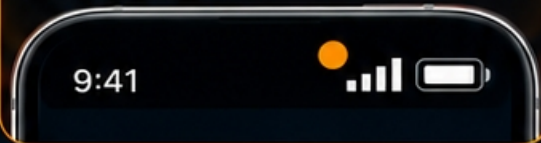

Green Indicator

An app is using the camera, or the camera and microphone together.

Orange Indicator

An app is using the microphone without the camera.

Location Services Arrow

An app is using or recently used your location.

Airplane Mode

Airplane Mode is on.

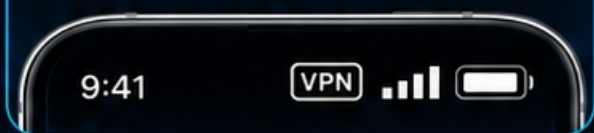

Focus (Moon)

A Focus mode, such as Do Not Disturb, is active.

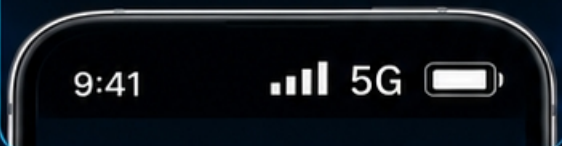

VPN

Your internet traffic is being routed through a VPN.

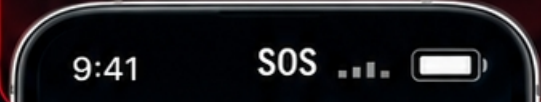

Cellular Network (5G / LTE / 4G)

Shows the type of cellular network you are connected to.

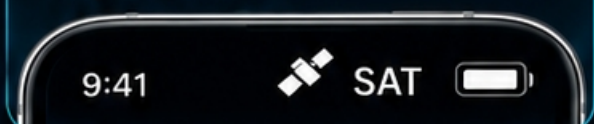

SOS / SOS Only

Your iPhone is not connected to its normal cellular network, but emergency calls may still be available through another network.

Satellite (SAT)

Satellite features are available or being used when supported. Carrier-provided satellite service may show "SAT."

Green Battery

Your iPhone is charging.

Yellow Battery

Low Power Mode is turned on.

Red Battery

Your battery level is very low.

Charging Icon

The lightning bolt means your iPhone is connected to power.

Good to know: A blue or red dot is not a standard iPhone privacy indicator. Apple uses green for camera/camera + microphone and orange for microphone.
