Step 5
Customer Communication TAB

The "Customer Communication" tab enables you to input information for the contact button on your profile. You'll be prompted to provide both an email address and a phone number for your venue. While this step is optional, it's highly recommended one or both contact details as it allows users to reach out to you directly for bookings or inquiries.

Step 6
Table Bookings
The Table Bookings tab offers two methods to accept bookings.

The first option involves adding your URL, which will direct customers to your online booking platform. Ensure to include "http://" to create a functional link.

The second is through our straightforward built-in booking system. You can input the business's email address, and our platform will send a basic booking request from the customer. If you opt for this method, it's crucial to monitor your emails to promptly respond to booking requests.

Step 7
Adding Business Hours

Opening Times

If your establishment operates every day with consistent hours, kindly provide the opening and closing times for both weekdays and weekends. If there are breaks between sittings, you can include additional time slots using the + button.

For venues with non-standard operating days or varying hours, please choose the custom option. This will enable you to personalize your opening and closing hours for each day of the week.
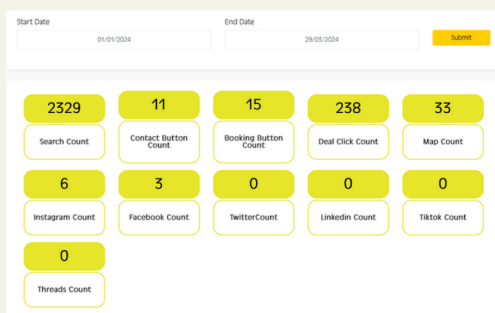

Step 8
Adding Socials
When adding your social media links, ensure you include "http://" to create a complete link.
