# Living Harmony Healing Center

ACUPUNCTURE & HERBAL MEDICINE

Chinese Medicine has been used for thousands of years. It is based on an understanding of life and the body that is very different from our traditional way of thinking in the Western world. Chinese Medicine views our bodies as intricately linked with the world around us and even with one another. It takes a holistic view on health and sees individuals as entire systems, not just as a list of symptoms to be treated separately.

Natural healthcare for adults and children, specializing in:

- Menstrual and Reproductive Issues
- Menopause
- Migraines
- Depression
- Neck and Low Back Pain
- Bowel and Digestion Problems
- TMJ and Bell's Palsy
- Sciatica
- Rehabilitation after Surgeries or Injuries
- Asthma and more.

**BECKY RUBRIGHT**, Acupuncture Physician, was recognized as a Master of Oriental Medicine, with honors, by Emperor's College of Traditional Oriental Medicine in Los Angeles, CA. Since 2002 she has been in Florida providing natural healthcare to her community at Living Harmony Healing Center.
