Project: Kennedy Residence Restoration

Location: Mesa, AZ

Date: 5/7/2026

Recently I employed Levi Marker and Brian Dunagan owners of ZEN Construction to restore and renovate my home in Mesa after a horrific roof leak. Upon meeting them I knew immediately that they were going to do what they said and oversee every step of this project. Their moto is "Relax We Got You". How true that was! They said that at our first meeting and they lived up to their word. If something came up or I needed to make a change they said "we got you". They started on time and finished even a little earlier than expected.

They had to repair and paint ceilings and walls. They installed a beautiful laminate floor throughout the unit and did an incredible job. I also had to tear out an old tub and put in a walk in shower. It turned out great.

I was very pleased with the quality of work Zen Construction did. I highly recommend them.
