

24-25 Pricing and Options

There are two styles of traps: cross style (top) and H-style (bottom).

Masts measure about 31" x 1" x 3/4". Arms measure about 24" x 3/4" x 3/4". Flags are 3.5" x 4.25" and stand ~36" above the ice. One color of reflective tape is included on the mast and a 4" aluminum reel. The mast and arms are made from red oak. A blaze orange or blaze red vinyl flag (7oz/yard) is included.

Nuts, bolts and washers are stainless steel. The reel drag nylon-lock wing nut is zinc-plated. Reels are made using aluminum and brass components. The drag uses a nylon washer and stainless-steel spring. Nylon spacers are used on the reel axle. H-style traps use nylon spacers between the mast and arms. Flag wires, flag brackets, trip tubes, trip wires, tube clips and wood screws are stainless steel. The flag spring is zinc plated.

Various upgrades are available: different wood, more than one color of reflective tape, heavy duty vinyl flags, flags with reflective material, a second flag, stainless-steel flag spring, 4.5" reel, as well as custom branding.
