SOUNDTRACK ARTIST LEXI JONES RELEASES NEW SINGLE

JUNE (I WANNA FALL) – LATEST MUSIC FROM LJ

Dateline: GAINES, MI JUNE 1, 2021 — Soundtrack artist **Lexi Jones'** new single, *JUNE (I WANNA FALL)*, was enthusiastically chosen by her fans to be the singer-songwriter's latest release (released June 1st). *JUNE's* memorable melodies and soulful lyrics reminds us all of our favorite nostalgic moments.

JUNE is an impressive follow up to Lexi's previous tracks, the catchy *Greetings From The Graveyard* and the anthemic *Proud To Be A Woman*. Lexi Jones has proven herself as a creative force to be reckoned with.

Lexi's music has been placed in several film scores and soundtracks including Amazon Prime's horror comedy *RottenTail*, the celebrated Rom-Com *Karma Dog*, and the critically acclaimed TUBI TV series *Tale of Tails*.

Award-winning composers **Allen Lynch** and **Randy Lynch** of III WORLDS ENTERTAINMENT & MUSIC GROUP (3WM) and **Johanna 'Jaunty' Meek** of DEATH BY LIPSTICK Productions (DBL) were chosen by **Folktellers** to compose music for its television series, adapted from the Folktellers acclaimed *Excerpts from an Unknown Guidebook* young adult novels. Artist **Lexi Jones** was selected by the accomplished producers to sing the theme song, *The Story of Us All*.

Folktellers Creator and Executive Producer, **Josef Bastian**, stated, "Our vision at Folktellers has always been to work with top artists who are willing to share their talent, creativity, and

depth of spirit to bring this universe to life – Randy, Allen, Jaunty, and Lexi are doing just that with their music.”

Randy Lynch added, “We (3WM) love the powerful messaging and diverse themes.” **Allen Lynch** agreed, noting, “There’s something immensely powerful and spiritual about the entire Folktellers series.” III WORLDS MUSIC has composed, performed, and produced songs for multi-platinum albums, movie and TV soundtracks, and underscores including Disney's *Annapolis*, Sony's *xXx: State of the Union*, and Universal's *2 Fast 2 Furious*.

DBL's CEO **Jaunty Meek** also noted, “Putting stories and music together brings the stories alive and opens your imagination to possibilities.” DBL has alliances around the world working with both emerging and established artists including Mark Burnett's *Rock Star: INXS* vocalists and the late legendary Dick Wagner (Aerosmith, Alice Cooper).

“My favorite part of being in the Folktellers Universe is working with all the creative, magical people who bring this universe to life,” says artist **Lexi Jones**.

Jones is also known as half of the alternative rock duo PHOENIX UNCAGED (with **Kianna Ryan**).

Lexi Jones is indeed a creative force.
