Sivoia QS Triathlon

Residence: _____ **Room:** _____ **Window(s):**_____

Step 1   Select Shade Style

☐ **Honeycomb**
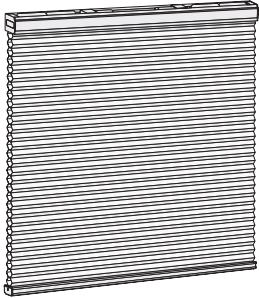

☐ **Roller**

☐ **Headrail without fascia**
(battery-powered, regular roll shown)

☐ **Regular Roll**
fabric closest to the glass
(standard)

Glass

☐ **Reverse Roll**
fabric farthest from the glass
(recommended to clear door or
window hardware)

Glass

☐ **With fascia**

☐ **Fabric-Wrapped**

☐ **Architectural**

☐ **Regular Roll**
fabric closest to the glass
(reverse roll not available
with fascia)

Glass

Step 2   Select Power

☐ Battery-powered

☐ Plug-in

☐ Power Panel

☐ Manual shade

Step 3   Select Control

☐ **System**

☐ Keypad

☐ Timeclock

☐ Mobile device

☐ Pico

☐ Third-party integration

☐ **Standalone**

☐ **Pico**
for controlling a single
shade or multiple shades
with one button press.

☐ **4-group RF**
for assigning a group of shades
to each of the four group buttons
on the remote.

Please note: Product options may vary depending on application and intended use. For more technical information, reference **www.lutron.com** or work with your qualified Lutron provider. Product availability is subject to change.

☐ **Inside Mount** enter window measurements below;
if full recess is desired, check the projection dimension of your shade type
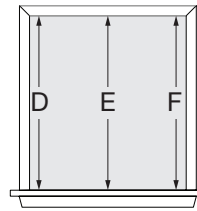

Width:
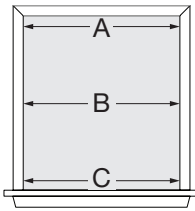

A _____ inches/mm

B _____ inches/mm

C _____ inches/mm

Smallest width: _____ inches/mm
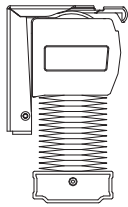

Height:

D _____ inches/mm

E _____ inches/mm

F _____ inches/mm

Smallest width: _____ inches/mm

**Honeycomb shade projection** full-recess depth for inside mount

Battery powered
Tap 'n' Tilt brackets

2½ in
(64 mm)

Manual shade
Stationary brackets

2 in
(51 mm)

Roller shade projection full-recess depth for inside mount
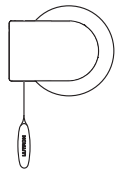

**Without Fascia***
(battery powered)
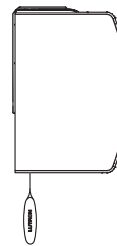

3 in
(76 mm)

(wired power)
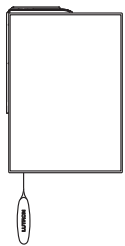

3 in
(76 mm)

(cordless manual)

3 in
(76 mm)

Fabric-Wrapped Fascia

3⅜ in
(86 mm)

Architectural Fascia

3⅜ in
(86 mm)

* Without fascia, the projection varies with the size of the fabric roll-up (fabric panel height). The dimension shown is based on the largest available fabric panel height; the **maximum** projection.

☐ **Outside Mount** enter width and height below

☐ **On Trim**   ☐ **Above Trim**** (includes spacers to clear trim up to 1/2″ (13 mm) thick)

Width: Enter the width of the area you want the fabric to cover   _____ inches/mm

Height: Enter the distance from the top of the headrail to the window sill   _____ inches/mm

** When mounting above trim, the top of the headrail must be at least 3⅛″ (80 mm) (honeycomb), or 4½″ (114 mm) (roller) above the top edge of the window trim.

Step 5	Select Fabric

Utilize the insulating Honeycomb or Roller Essentials fabric binder or visit **www.lutron.com/fabrics**
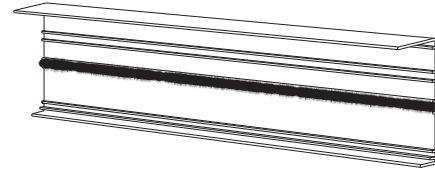

Fabric P/N: _____

For more information, please download the Lutron Fabric Collections mobile app.

Step 6	Honeycomb Shade Enhancements

❑ **Back Cover**

A cover on the back of the headrail eliminates any light that may come through the mounting area (typically used only on room darkening, inside mount applications).
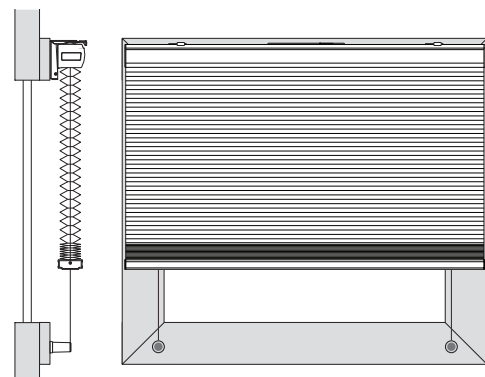

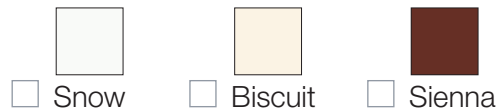

❑ **Cable-Guided**
(outside mount only)

Select this if you are mounting a shade to a door.

Choose anchor and matching hardware color:

☐ Snow   ☐ Biscuit   ☐ Sienna
