

PRIME INFRA

EXPERIENCE THE DIFFERENCE

ABOUT US

**WE TAKE IMMENSE
PLEASURE IN
INTRODUCING OUR
COMPANY.
M/S.PRIME INFRA**

Its a Leading Manufacturer and Supplier of Innovative, Cost-effective high quality customized moulded products made up of GRC/GFRC/FRP/GRP materials used for construction, building Exteriors, Interiors, Landscaping Areas, Utility and Decorative purposes.

OUR HISTORY

Based in Navi Mumbai, PRIME INFRA is a brain-child of our Founder and Managing Director Mr Suresh Kumar Singh who has an expertise and experience of more than 19 years in this field.

PRIME INFRA came into force in the year of 2016 and in a short span of time has listed its name in various Prestigious Projects and is very proud to have an impressive list of its Esteemed Clients

WHAT WE ARE?

PRIME INFRA is known for its adaptability as per the requirements of the ever-changing Prerequisites of their Esteemed Clients. With stringent standards and driven workforce, We deliver Unmatched Services and Quality Products to Our clients.

This has made Us an Innovative Pioneer and Leader in the Industry.

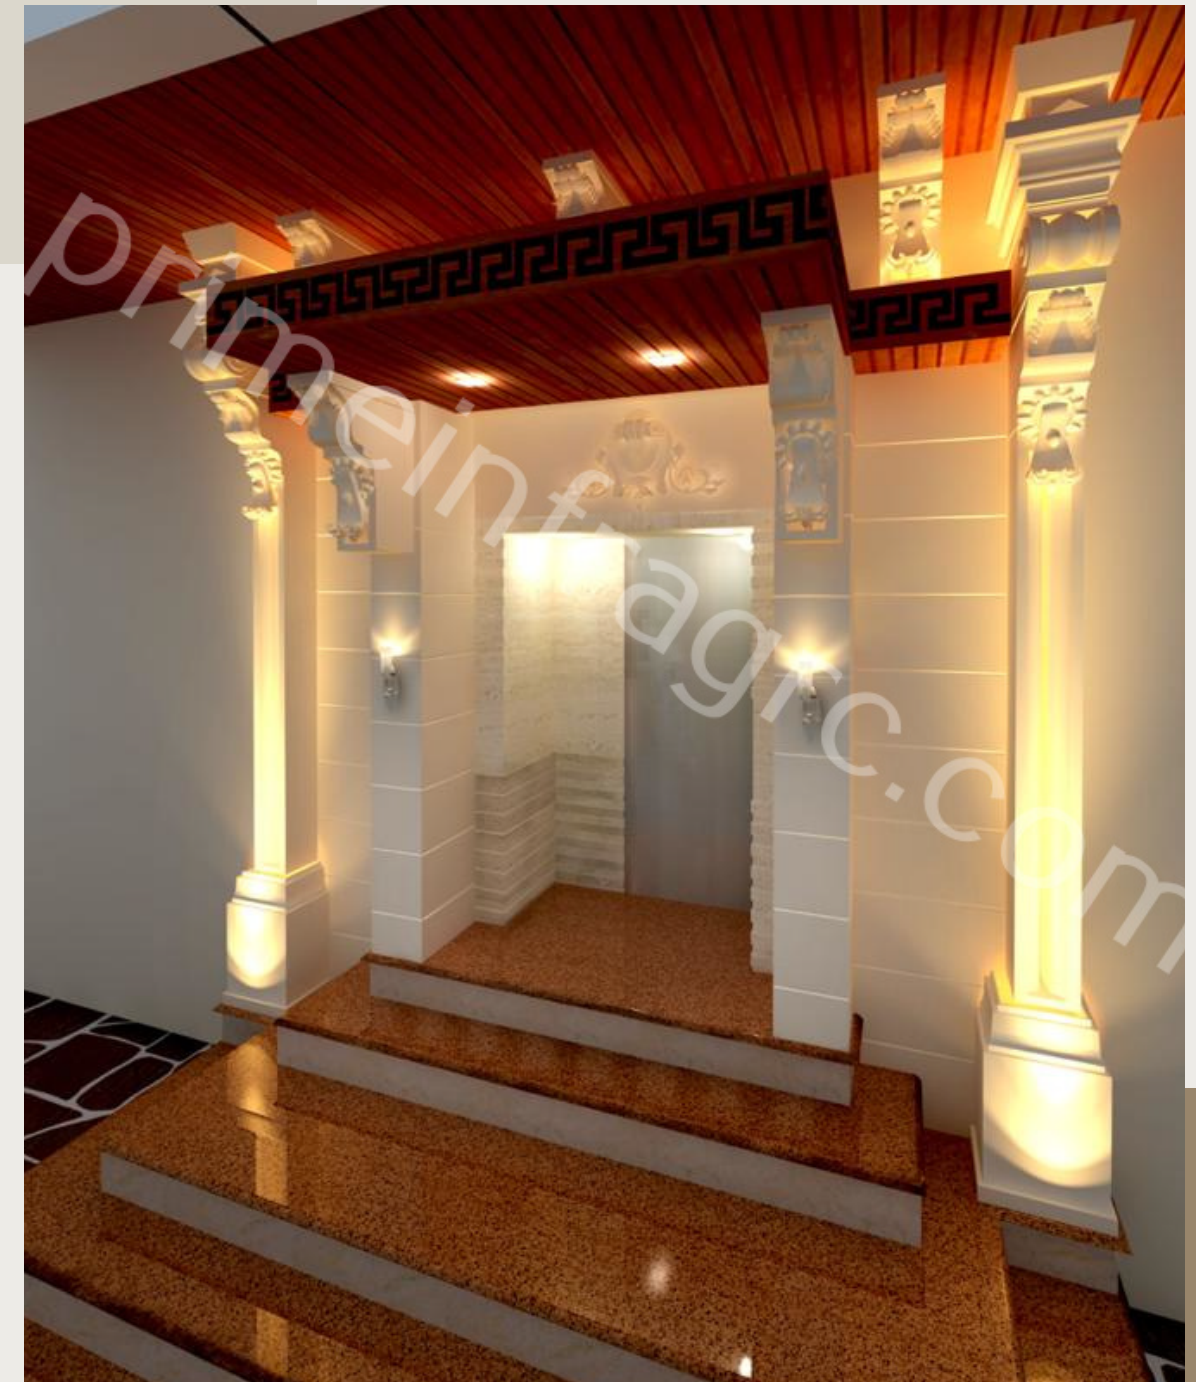

WHAT WE OFFER?

We offer full Composite Solutions Services under one Roof and Our Quality of Work and Quality Management System Speaks for itself. Quality and integrity are the Core of our business.

We take pride in providing quality work from any point of a Project – Concept, Design and Engineering Services.

WHY US?

- We can provide realistic solutions in the construction using our products which can give economic benefits together with excellent appearance.
- Our products are formed by a variety of manufacturing techniques. One of the most versatile is to cast the composite in moulds manufactured from rubber, timber, or glass fibre reinforced plastic.
- We provide architects and engineers with a material that can be used to produce even the most challenging designs. It can be sculpted into either futuristic designs or classic historical elements.
- Our products can be painted, faced with fine aggregates, coloured, or simply left with a natural white or grey, smooth, or textured finish.
- Our products are suitable material for renovations since they are light weight, easy to fix, and reduce the weight imposed on the existing structure.
- Production and use of our products has become very common, and they can be used to a great effect.
