- Occupational Therapy
- Physical Therapy
- Speech Language Pathology
- Social Work/ Counseling
- Massage Therapy
- Personal Therapy\*
- ABA
- Rehabilitation Technician\*
- Recreational Therapy

\*Under the direction of a skilled clinician

\*\*Not available in all areas

## Behavioral Health / ABA Applied Behavior Analysis

Rebound offers a Behavioral Health at home program. Services are based on a comprehensive physical, psychological, mental, cognitive, family and environmental evaluation.

Applied Behavior Analysis is the gold standard in treating individuals who have Autism. At Rebound, we aim to work with our clients and families to increase the socially significant behaviors that result in enhanced communication skills and independent living skills. At the same time, this process works to naturally decrease maladaptive/challenging behaviors. We closely collaborate with each of our client's, family, school system, physician's offices, community support/resources, and all others involved, to meet your needs!

## We serve individuals recovering from a myriad of challenges...

- Progressive Conditions
- Traumatic Brain Injury
- Spinal Cord Injury
- Orthopedic Injury
- Joint Dysfunction
- Fall Prevention
- Fibromyalgia
- Amputations
- Headaches
- Tendonitis
- Back Pain
- Vertigo
- Autism
- Stroke

### Client Centered Service

We assist you and your family to determine what you want to be able to do! Then we help you achieve your goals! Not only do we connect with you, but also with your care management team. Communication is vital to your success.

### Staffing

Rebound is a professional rehabilitation contract agency with a network of experienced therapists covering the lower peninsula of Michigan. Our mission is to provide fantastic customer service with excellent patient care that exceeds your expectations. We specialize in Physical, Occupational and Speech Therapy covering a variety of settings including home health, outpatient, skilled nursing facilities, acute care, assisted living and independent living facilities.
