- Recording and updating all test results, reports and certificates and submit to client
- Ensuring compilation of As-Built documentation

OUR SERVICES

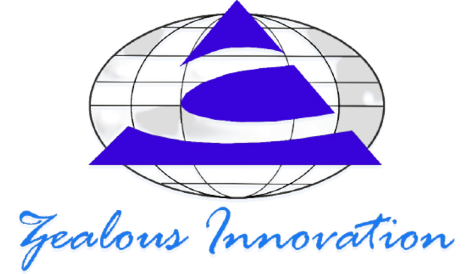

Qualification and Validation

- Validation Master Plan (VMP) and Project Validation Plans
- Risk & Impact Assessment
- Develop and Review User Requirement Specification (URS)
- Review of Functional Design Specification (FDS) of equipment
- Development of DQ, IQ, OQ and PQ Documents
- Factory Acceptance Test
- Site Acceptance Test
- Computer System Validation

Regulatory Compliance

- Preparation of Drug Substance and Drug product registration dossier
- Dossier Preparation & Submissions in CTD
- Drug Firm Establishment Registration
- NDC [National Drug Code] and Electronic submission
- Preparation of DMF [Drug Master Files]
- Review of Dossiers
- GAP Analysis
- Liaison for DCGI licensing & FDA, CDSCO activities
- Site Master file as per Local FDA requirement

OUR SERVICES

Concept Engineering

- Site Master Planning
- Conceptual Design Planning
- cGMP Layouts
- Containment Strategies
- General Planning & Engineering
- Equipment Sizing
- Production Capacity Planning
- Basis of Design
- Cost Estimates

Detailed Engineering

Tender Documents with BOQ and specifications for

- Architectural, Civil, Structural
- Mechanical
- HVAC
- Modular Panels/Clean Rooms
- Electrical, Instrumentation
- BMS, EMS
- Fire Fighting
- Clean Utilities
- Black Utilities
- Bill of Quantity, Revit 3D Design on BIM Platform, Technical Data Sheets, Technical Specifications, Approved Makes List, Good for Construction Drawings.
