That can add up to a lot of UV  
exposure and potential skin damage.

Did you know the driver's side of your body is most at risk for exposure to damaging UV rays? The same UV rays that can cause wrinkles on your skin can also fade and crack your car's upholstery.

**LLumar automotive window tints** block more than 99% of harmful UV rays<sup>2</sup>. Trust LLumar to help safeguard you, your family, and your investment.
