## The Dignify Process

Helping equip secondary school students to thrive in healthy relationships free from the harms of porn and sexual objectification.

NNECT

**Consultation:** Let's start with a conversation. We offer a **free** consultation to explore your school's needs and share how Dignify can support your school. This consultation approach is continued through regular feedback and impact reviews after service delivery.

IGHTS

**School Survey:** Our anonymous survey gives insight into your students' experiences of harassment, sex education, pornography, and wellbeing—offering tailored insights that help shape your education and approach to supporting your students.

CATION

**Assemblies, Workshops & Lessons:** From whole-school assemblies to small group workshops, our sessions are engaging, ageappropriate, and rooted in dignity—covering topics including online safety, healthy relationships, and pornography.

\*(Location Dependent)

CATIO

**Teacher Training & Whole School Lesson Pack:** We equip teachers with practical tools to lead meaningful conversations. Our curriculum-compliant packs offer ready-to-use lessons for all year groups on key topics such as healthy relationships.

OCACY

**Dignify Youth Ambassadors:** Empower students to lead change in your school and beyond. Our Ambassador programme invites them to share views, join focus groups, and support our advocacy and policy work—amplifying youth voice meaningfully.

CATION

**Parent/Carer Workshops:** We partner with parents to offer practical advice on smartphones, relationships, and wellbeing—championing children in and beyond school. Parents also gain access to our online **Parent Network** for resources, legislative updates and events.

**NSIGHTS** 

**Parent/Carer Survey:** Parents' voices matter too. Our survey invites parents and carers to share their views on parenting, digital safety, sex education and more. Their insights help shape your curriculum and enable us to deliver more targeted workshops.

## Whole School Approach

These five services work together strategically—identifying areas for growth through student insight, then delivering targeted education and training for lasting, schoolwide impact.

## Whole Community Approach

We know that it is not the sole-responsibility of schools to raise digitally resilient children. Parents, carers and relatives have a critical role too. This holistic approach helps create substantial, long-lasting change that is carried beyond the walls of your schools.

We advise selecting one of the two approaches, but individual services can be provided separately.
