**REGISTER**

This Summit is a collaboration of Kenyan immigrant community in America and their affiliated organizations that form the Association of Kenyan Diaspora Organizations, Inc. Our theme this year is “Diaspora Expanding Opportunities & Partnerships for a Brighter Future” where business leaders, youth, community leaders, government officials, will connect and engage with the African immigrant community in the United States to explore investment and trade opportunities. For us in the Diaspora, it is an opportunity to showcase and advance our own progress in advancing our common welfare particularly in our economic ecosystem and investments, governance, and culture. Topics up for discussion include, Investment and Trade opportunities, Insurance, Banking, Healthcare, Tourism, Africa Growth & Opportunity Act (AGOA), Real Estate, public infrastructure, Women, Youth, and Diaspora development.
