Note 1 – Organization and Basis of Presentation

Horizon Group Properties, Inc. ("HGPI" or, together with its subsidiaries "HGP" or the "Company") is a Maryland corporation that was established on June 15, 1998. The operations of the Company are conducted primarily through a subsidiary limited partnership, Horizon Group Properties, L.P. ("HGP LP") of which HGPI is the sole general partner. As of March 31, 2025 and December 31, 2024, HGPI owned approximately 87% of the partnership interests (the "Common Units") of HGP LP. In general, Common Units are exchangeable for shares of Common Stock on a one-for-one basis (or for an equivalent cash amount at HGPI's election).

The accompanying unaudited condensed consolidated financial statements include the accounts of all majority-owned subsidiaries, and all significant inter-company amounts have been eliminated. Due to the seasonal nature of certain operational activities, among other factors, the results for the interim period ended March 31, 2025, are not necessarily indicative of the results that may be obtained for the full fiscal year.

These condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States ("GAAP") and include selected information and disclosures for the interim periods. Accordingly, they do not include all of the disclosures required by GAAP for complete financial statements. These condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and related notes for the year ended December 31, 2024.

The Company's primary assets are its investments in subsidiary entities that own real estate. HGPI consolidates the results of operations and the balance sheets of those entities of which the Company owns the majority interest and of those variable interest entities of which the Company is the primary beneficiary. The Company accounts for its investments in entities which do not meet these criteria using the equity or cost method. The entities referred to herein are consolidated subsidiaries of the Company, unless they are discussed in Note 4; those entities are accounted for using the equity method of accounting.

Note 2 - Summary of Significant Accounting Policies

The condensed consolidated financial statements have been prepared in conformity with GAAP, which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities (including disclosure of contingent assets and liabilities) at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

In the opinion of management, all adjustments necessary for a fair statement of the financial position and results of operations for the interim periods presented have been included in these condensed consolidated financial statements and are of a normal and recurring nature.

Principles of Consolidation

The condensed consolidated financial statements include the accounts of HGPI and all subsidiaries that HGPI controls, including HGP LP. The Company considers itself to control an entity if it is the majority owner of or has voting control over such entity. All significant intercompany balances and transactions have been eliminated in consolidation.

Pre-Development Costs

The pre-development stage of a project involves certain costs to ascertain the viability of a potential project and to secure the necessary land. Direct costs to acquire the assets are capitalized as future development costs once the acquisition becomes probable. These costs are carried in Other Assets until conditions are met that indicate that development is forthcoming, at which point the costs are reclassified to Construction in Progress. In the event a development is no longer deemed probable and costs are deemed to be non-recoverable, the applicable costs

Notes to Condensed Consolidated Financial Statements Three Months Ended March 31, 2025 and 2024 (unaudited)

previously capitalized are expensed when the project is abandoned or these costs are determined to be non-recoverable.

At March 31, 2025 and December 31, 2024, predevelopment costs classified as Other Assets included projects totaling \$0, respectively.

Revenue Recognition

Revenue from Leasing Arrangements

The Company's revenues primarily result from revenue from leasing arrangements. Leases with tenants are accounted for as operating leases. Lease revenues included minimum rent, percentage rent, other rents and reimbursements form tenants for real estate taxes, insurance, CAM and other operating expenses as provided in these lease agreements. Minimum annual rentals are recognized on a straight-line basis over the terms of the respective leases. Rents that represent basic occupancy costs, including fixed amounts and amounts computed as a function of sales, are classified as base rent. Amounts which may become payable in addition to base rent and which are computed as a function of sales in excess of certain thresholds are classified as percentage rents and are accrued after the reported tenant sales exceed the applicable thresholds. Expense recoveries based on common area maintenance expenses and certain other expenses are accrued in the period in which the related expense is incurred.

Management, Development and Leasing Fees

The company earns revenue from contracts with third parties and unconsolidated affiliates for property management, leasing, development and other services. These contracts are accounted for on a month-to-month basis. Management fees are charged as a percentage of revenues and recognized as revenue over time as services are provided. Leasing fees are charged for newly executed leases and lease renewals and are recognized as revenue upon lease execution, when the performance obligation is completed. Development fees are set as a fixed rate in a separate agreement.

Development and leasing fees received from an unconsolidated affiliate are recognized as revenue only to the extent of the third-party partner's ownership interest. The Company's share of such fees are recorded as a reduction to the Company's investment in the unconsolidated affiliate. Fees received from consolidated joint ventures are eliminated in consolidation.

Income Taxes

Deferred income taxes are recorded based on enacted statutory rates to reflect the tax consequences in future years of the differences between the tax bases of assets and liabilities and their financial reporting amounts. Deferred tax assets, such as net operating loss carryforwards which will generate future tax benefits, are recognized to the extent that realization of such benefits through future taxable earnings or alternative tax strategies in the foreseeable future is more likely than not.

As of March 31, 2025 and December 31, 2024, and for the periods then ended, the Company did not have a net liability for any unrecognized tax benefits. The Company recognizes interest and penalties, if any, related to unrecognized tax benefits as interest or general and administrative expense in the statement of operations. For the periods ended March 31, 2025 and 2024, the Company did not incur any interest or penalties.

Investments in Joint Ventures

The Company uses the equity method of accounting for its investments in Joint Ventures, as the Company is able to significantly influence the operations of the underlying investment, but does not control the underlying investment. The investments are recorded at initial cost and adjusted for the Company's proportionate share of income or loss. Contributions and distributions are treated as additions or reductions of the investments' cost basis.

Notes to Condensed Consolidated Financial Statements Three Months Ended March 31, 2025 and 2024 (unaudited)

The Company elected the fair value option for its investment in Horizon Atlanta and Horizon Louisville. Due to the nature of these investments, the Company elected the fair value option to more accurately present the Company's portion of the value and changes thereof in the underlying investments. Changes in the fair value of the joint ventures are recorded as a component of income from investment in joint ventures on the consolidated statement of operations.

Distributions are reported in cash flows from operations unless the facts and circumstances of a specific distribution clearly indicate that it is a return of capital, which would then be presented as cash flows from investing activities.

Subsequent Events

The Company has evaluated subsequent events through July 15, 2025, the date the condensed consolidated financial statements were available to be issued.
