

CLEAN@SILVER LAKE
WATER QUALITY REPORT
April 1, 2026

- **Dredging** – Working on scheduling a meeting with Rob, Michelle and Scott Schrader to get clarification of the dredging plan/scope and clear messaging.
- **Weed Harvesting** – DEC did not approve the permit. More detail is required for material handling/disposal.
- **Ultrasonic Buoy** –Nate is still considering this option and will continue to research grant opportunities and data from other lakes using this system.
- **GOLF TOURNAMENT** – Only 9 spots left. Sponsors letters have been sent or emailed. Heidi is requesting that the team review the list and each take a few to contact. T-shirts approved and the size request has been added to the registration. Michelle to contact the teams already registered for sizes. Golf shirts will also be ordered for CLEAN board members as well as team members assisting at the June 6th meeting.
- CSLAP – CLEAN hosting the training this year on June 11th with rain date June 12th. 2025 reports have been uploaded.
- Native Planting Plan for 2026 – Kelly to contact Warrior House about a possible riparian buffer area at the waterfront. Also, native plants to be ordered to help Kell McMurty complete the state park pollinator garden. Help is also needed to check and maintain the previous planting areas.
- Japanese Knotweed - Approved plan to treat the Institute large area – quoted price is \$4,500, but waiting for a price for cutting. Costs will be shared between WCWSCD, CLEAN and the Institute. Private Drive #1 will also be treated if we receive permission from the new owners of the Silver Lake Golf Course.
