Nuisance Vehicles at South Park Road

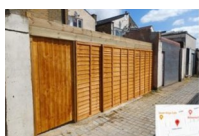

Advice Surgeries

Planters on South Park Drive and Green Lane

Environmental Crime and Anti-Social Behaviour

Officers reacted to public concerns recently at Hobbs Mews in relation to Environmental Crime & Anti-Social Behaviour. The officers identified a key area of concern and have been working hard with a local landlord of Hobbs Mews to tackle an unsightly access area where there was evidence of waste accumulation and Drug & Alcohol use.

The officers issued the landlord with a Community Protection Notice with conditions to clear the land of all waste and secure it appropriately to prevent unauthorised access.

Nuisance Vehicles at South Park Road

A local car repairs garage was issued a Community Protection Warning Notice after it was established that they were storing unroadworthy, unmaintained, damaged or vehicles awaiting repair on the public highway in South Park Road, Ilford.

As part of the officers investigation, it appeared that there was an increased fear from local residents of vehicle related crime due to a number of vehicles connected to the garage having smashed windows and other damage.

The behaviour by this garage also caused a detriment to local residents who found it difficult to park their own vehicles.

Advice Surgeries

We have now restarted our regular advice surgeries with residents. Starting from September 2022, we will aim to hold a monthly surgery at Goodmayes Library (76 Goodmayes Lane, IG3 9QB). Full details are available on our website.

In addition, we will also be holding regular 'Coffee With A Councillor' events at Paratha Junction/Seven Kings Café (390 Green Lane, IG3 9JX). These are advertised on our social media accounts.

Planters on South Park Drive and Green Lane

In April 2021, Redbridge Council received central government funding to 'Welcome People Back to the High Street'.

Redbridge Council used some of that money to install some planters across the borough, 4 of which are in Mayfield ward (South Park Drive / Green Lane junction).

This year there is no funding available for this scheme, and the plants have died.

Unless we can raise some money to keep them, the planters will be removed.

If you are a local business/resident that is willing to adopt or sponsor these, please do get in touch.

We are working closely with the South Park Users Group on this initiative and trying our best to ensure that we can save these planters. Any financial assistance will be gratefully appreciated.
