Redbridge Chief Executive Visits Mayfield ward

Earlier this month, new Redbridge Council Chief Executive, Claire Symonds took time off from her busy schedule to visit Mayfield ward.

Cllrs Athwal, Khan, and Solanki took the opportunity to show her around the ward in order to showcase the amazing work done by some local organisations and groups in the ward, as well as to highlight the fly-tipping hotspots, areas with anti-social behaviour issues, parking and traffic concerns as well as pointing out concerns around businesses that may be operating illegally.

She has promised to look into our concerns – and we will report back to residents in due course.

Estates Day at Budoch Court

As part of Redbridge Council's Estates Days, Cllrs Khan and Solanki joined staff, contractors and residents at Budoch Court on August 10th.

This was a great opportunity to meet with all stakeholders to understand their concerns around our affordable homes programme.

We also managed to pick up some casework from residents and are following up on that. It was also great to see local kids enjoy the face-painting and the bouncy castle.

Sensory Play Area at Mayespark Primary School

On August 17th, Cllr Athwal visited the new sensory play area at Mayespark Primary School.

The playground has new climbing frames, tunnels, creative spaces and even a sandpit.

Learning through play is very important and it is great to see our brilliant schools supporting sensory play.

Visiting Ekota Academy in Goodmayes Park

Cllr Khan had the opportunity to visit Ekota Academy in Goodmayes Park and learn about the many different activities they are running for kids during the summer holidays.

Whilst he was there, he also took part in their litter pick and joined in with their sporting activities.

For local residents, both young and old, please do get in touch with Ekota Academy as they are doing some great work, including empowering women and girls via sports.

Queen Mary Opens New Medical Campus in Ilford

Queen Mary has taken space on the 12th floor of Lynton House, a Redbridge Council building, under a long-term lease.

The space will be used for education purposes, enabling medical students to learn both in the classroom and mock ward environment.

The Leader of Redbridge Council, Cllr Jas Athwal said "Having a world class University in the heart of Ilford opens up doors for young people across Redbridge, giving them the opportunity to follow their dreams closer to home."

Coffee with a Councillor Event on 27th Aug

Unfortunately, we had to cancel the 'Coffee with a Councillor' event that was scheduled for 13th August.

It was held on Saturday 27th August instead with a number of residents coming to see us to discuss a variety of issues. We are following up on all of them and will reply back to the residents concerned.

Please do keep an eye out on our social media accounts and on our website for details of future events.

Exam Results

Congratulations to all students in Mayfield ward that got their exam results.

We are so proud of you all and wish you well for the future.

Redbridge is home to some of the best schools in the country and these results reflect that brilliance.

Who knows, some of you might even end up studying at the Queen Mary Medical campus in Ilford.
