

A NOTE ABOUT YOUR CARE

At our practice, we use Artificial Intelligence (AI) to assist with clinical notes and dental image capturing. This helps us deliver more accurate and thorough care for every patient.

Your privacy and comfort are our highest priority. All AI-assisted processes comply with Australian Privacy Standards.

If you have any concerns or would prefer AI not be used during your appointment, please speak with your clinician before your consultation begins. We are happy to discuss your options.

Thank you for trusting us with your care.
