

# AGRI-PRODUCT (BOPP BAGS)

## BENEFITS OF BOPP BAGS:

- BOPP bags have multi colour printing and laminations on both sides.
- They are attractive and have a long life.
- They are printed and laminated from one end to another end which gives a beautiful finishing to the bags. Since the printing happens on both the sides with branding and gorgeous designs, the brand image gets an extra edge.
- The lamination provides extra protection to the printing on both the sides and also increases the strength of the bag.
- High quality inks are used to print the bags and these are also approved with FDA.
- Nylon and rubber stereo are used for good printing quality.
- These bags reduces the cost for both, the cylinders and bags. Also, it is possible to provide the bags approved with tape test and rub test.
- With so many advantages in terms of attractiveness, durability and added features, a BOPP bag is fast becoming the most preferred choice for product packaging.
