

RICE 26KG (BOPP BAGS)

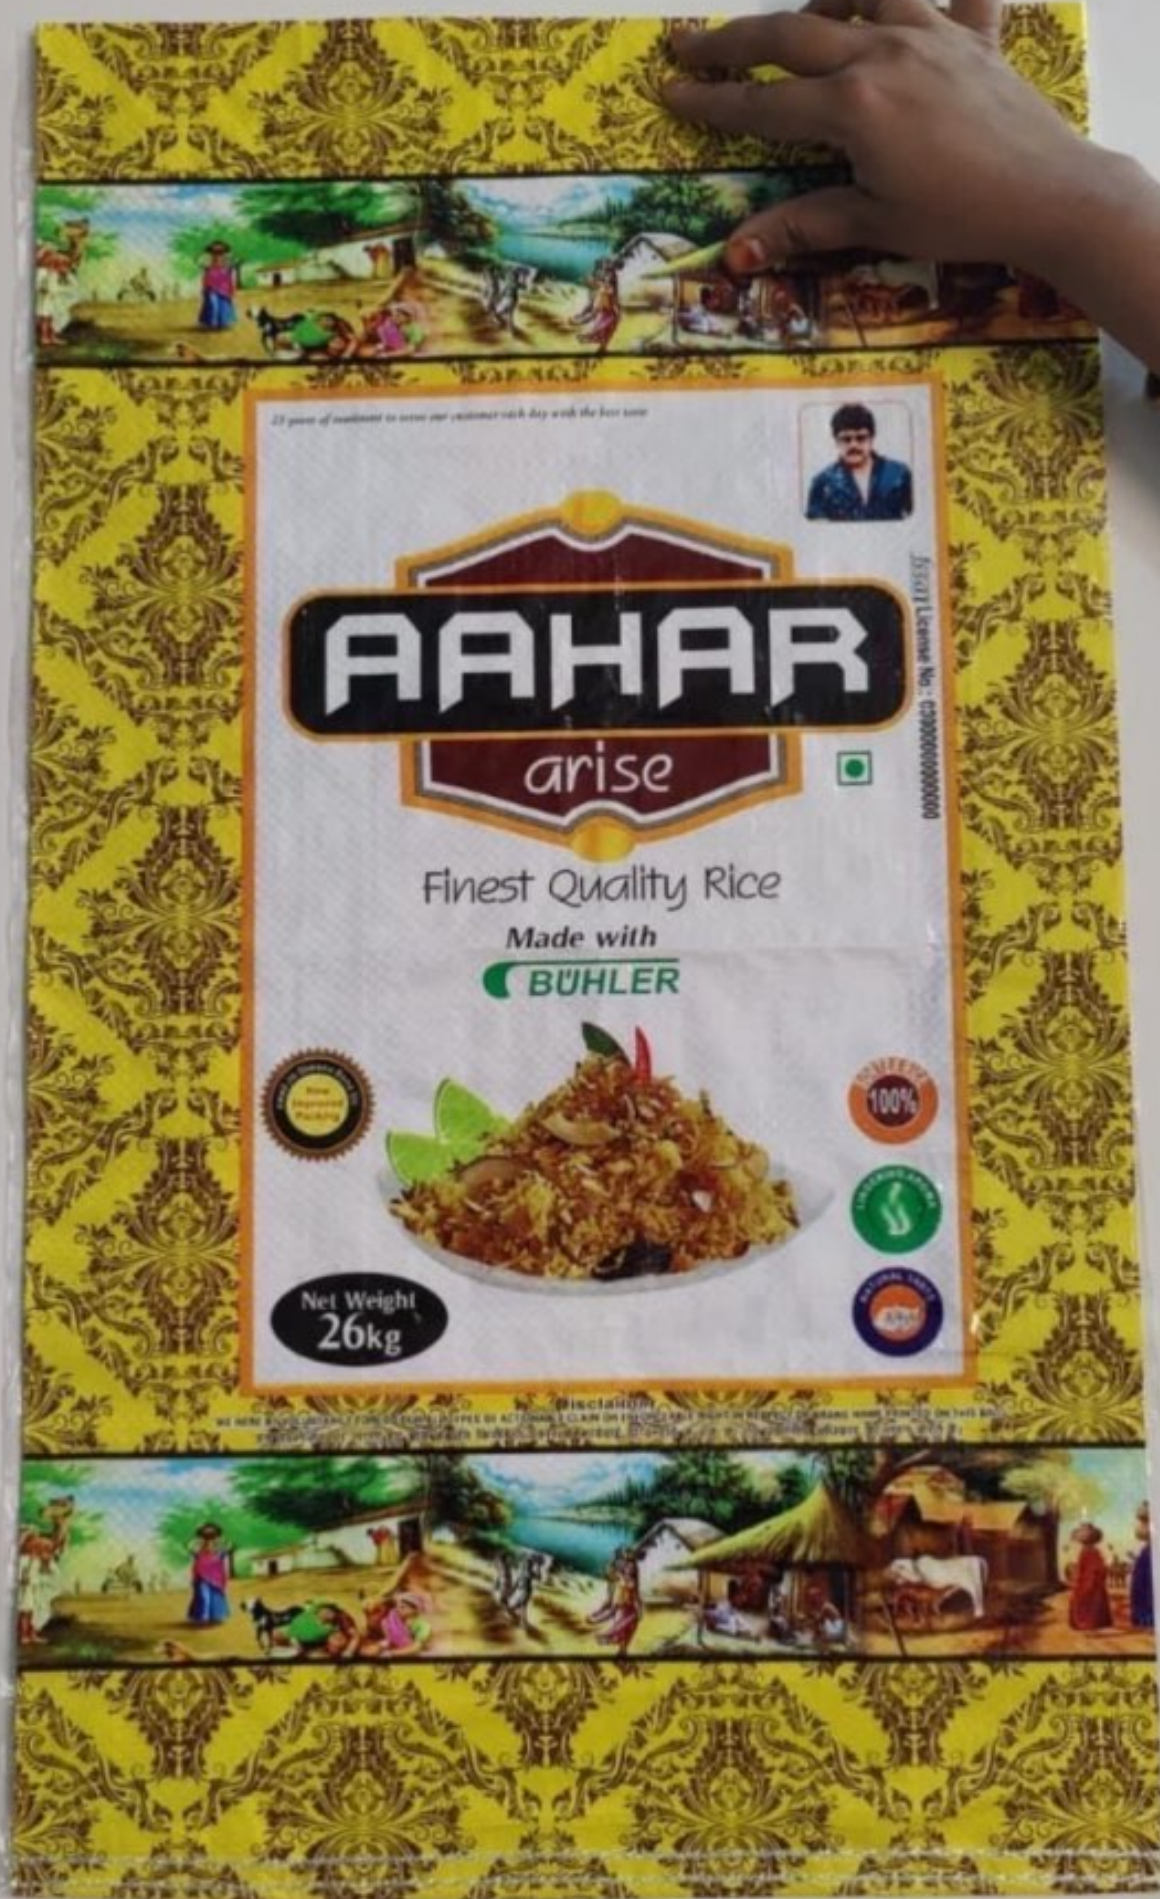

BENEFITS OF BOPP BAGS:

- BOPP bags have multi colour printing and laminations on both sides.
- They are attractive and have a long life.
- They are printed and laminated from one end to another end which gives a beautiful finishing to the bags. Since the printing happens on both the sides with branding and gorgeous designs, the brand image gets an extra edge.
- The lamination provides extra protection to the printing on both the sides and also increases the strength of the bag.
- High quality inks are used to print the bags and these are also approved with FDA.
- Nylon and rubber stereo are used for good printing quality.
- These bags reduces the cost for both, the cylinders and bags. Also, it is possible to provide the bags approved with tape test and rub test.
- With so many advantages in terms of attractiveness, durability and added features, a BOPP bag is fast becoming the most preferred choice for product packaging.

COOKING TIPS

Pre-Cooking: Rinse the rice thoroughly and soak for 2hrs.

Measures:

Open Pan cooking: 5 cups of water for 1 cup of rice. Closed pan cooking: 2 cups of water for 1 cups of rice. The rice may require slightly more or less water to cook depending on how hard or soft the water is. Add 1 tbs of butter / olive margarine and add salt to taste.

COOKING METHODS

OPEN PAN: Bring water to a rolling boil. Add the rice, stir, return to a medium boil and cook uncovered for 12-15 minutes. Drain and Rinse.

CLOSED PAN: Put measured rice in a water into a heavy based pan. Bring to boil, stir, cover and turn down the heat to simmer for 12-15 minutes. Turn off the heat and let it simmer with lid on, till each grain separates and swells. For desired softness, cook for some extra time.

MICROWAVE OVEN METHOD: For 1 cup, water 4 cups. Wash rice and mix with measured water. Keep in microwave proof dish. Cook in micro power medium high for 10 to 12 minutes in open container. Cover with lid and cook in high for another 5 to 7 minutes.

ELECTRIC RICE COOKER: Put soaked rice in a cooker. Add measure water. Switch on the cooker. The cooker will automatically switch from "Cook" to "Keep Warm" mode. Allow the rice to steam on this mode before serving.
