Authorization to Perform Alternative Therapy

I understand that the use of essential oils, supplements and aromatherapy is a complimentary holistic therapy and not intended to treat, diagnose and/or cure any medical issues. It is highly recommended that you continue to seek veterinarian care for routine visits and additional care as needed.

Essential Oil Therapy: Including Topical, Internal and Aromatic uses of Certified Pure Therapeutic Grade (CPTG) Essential Oils. This also may include dietary and supplemental therapy.

Essential Oils are highly concentrated volatile aromatic compounds that have been distilled or pressed from plants. Please note that all essential oils are NOT created equally. Therefore, when using them with or around your pet, carefully research the quality and select only CPTG essential oils. I only use doTERRA products which have been GC/MS tested.

The nature and purpose of the procedures, possible alternative methods of treatment, risks involved, and possibility of complications have been fully explained to me. I acknowledge that no guarantee or assurance has been made to me as to the results that may be obtained.
