## **1 POSTING**

ADMINS made changes to the posting to make it easier to see if budget groups were not ready to post.

### **1.1 Budget Posting Screen [Enhancement]**

The budget posting screen does not allow budget groups to be selected for posting if there is an issue – for example, some accounts within a group have not been approved.

The **Select Budget Groups for Post to GL** screen now highlights the groups that are not ready for posting, with a message that Accounts Need Approval before GL Post. The groups that are ready will be available for selection.

#### 1.2 Budget Posting Report [Fix]

When posting the Operating budget and not all budget group were selected for posting, the non-selected groups were displayed on the **Budget GL Posting** report, creating a disconnect between this report and what was posted to the General Ledger. This has been corrected; the report will show only the posted groups.

[ADM-AUC-BU-3932]

#### 1.2.1 Column Added [Enhancement]

Budget groups can be named differently from the department group. For example, there may be a budget group **CLERK** that is within Department #161, the **TOWN CLERK**. **ADMINS** added a column to the report to indicate which **Budget Group** is being posted; the report still is sorted and totaled by department group.

## 3 QUICK REPORT SELECTOR [Enhancement]

The **Quick Report/Task Selector** button is in the toolbar on all **AUC** screens. This feature allows a user to run any report in **AUC** quickly from any module instead of going to the report library for each module. Read **SY–117 Quick Report Selector** in the Help Reference Library for details on how to use this feature.

## 4 CHANGE / SET AUC PASSWORDS [Enhancement]

**ADMINS** added a **[Reset Password]** button on the login screen that allows users to reset their own **AUC** passwords. The feature requires an email address on the user profile for the user account.

Figure 4 Before and After – the new Reset Password button on the login screen

The email will be sent to the email address on the contact tab of the user profile table. The prompt will show which email address will be used. Check the email account for the new password for **AUC**.

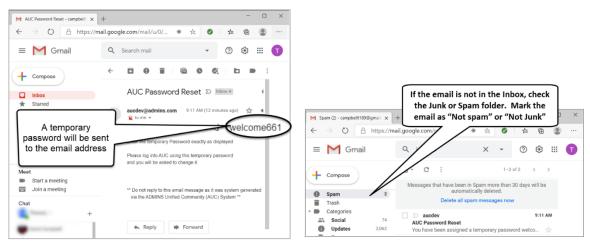

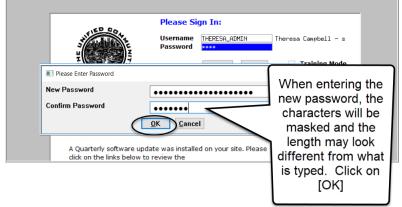

Figure 6 Sample email sent with temporary password

Figure 5 Set up email addresses for AUC users

If the email is not found in the inbox, check the spam or junk folder. Use the password in the email exactly as shown (case sensitive). The system will immediately prompt for a new password.

Type a new password and confirm the new password.
