FIXED ASSETS
RELEASE NOTES – DECEMBER 2021

This document explains new product enhancements added to the **ADMINS Unified Community for Windows (AUC) FIXED ASSETS** system.

1 ATTACHMENTS [ENHANCEMENT]

ADMINS changed the error checking on attachments to limit the check to \\tsclient\C, so the system will prevent the attachment if a user tries to attach a file from the C drive of their local PC. If they are attaching to *another* mapped network drive shared from the local PC, the attachment will be allowed. System Administrators can minimize attachment loss by ensuring consistency in drive letter mapping; for example, push the drive mapping out via group policy for all users of AUC.

Please see the September 2021 Release Notes for a list of the modules and screens this change will impact.
