

FIXED ASSETS

RELEASE NOTES – SEPTEMBER 2021

This document explains new product enhancements added to the **ADMINS Unified Community for Windows (AUC) FIXED ASSETS** system.

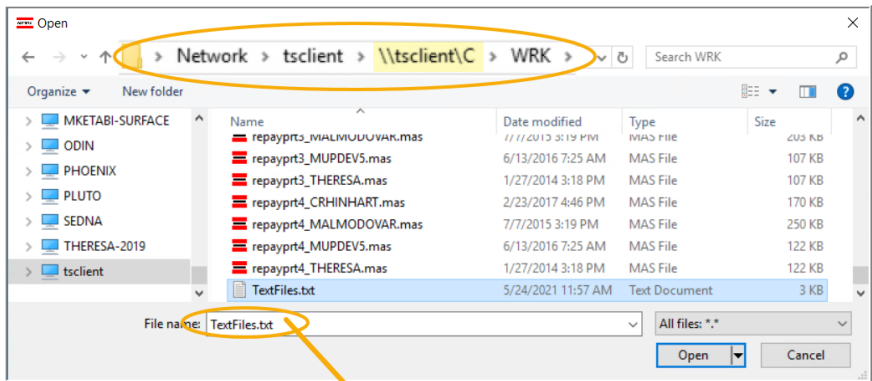

Contents

1	ATTACHMENTS [ENHANCEMENT]	1
1.1	Prevent Attaching Files Residing on Local Workstations	1
1.1.1	Screens Using the New Feature.....	2
1.2	Weekly Error Check Report.....	2

1 ATTACHMENTS [ENHANCEMENT]

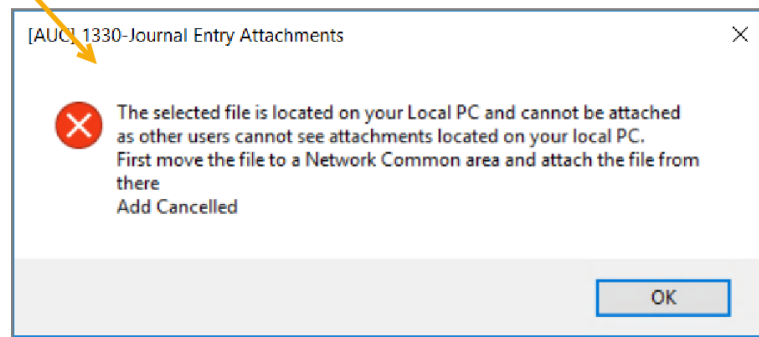

Users occasionally notice that an attachment listed on one of the many attachment screens is not available. **ADMINS** found that this frequently is due to the attached file residing on a local client workstation or location that is not available to all users.

1.1 Prevent Attaching Files Residing on Local Workstations

ADMINS made a change to prevent users attaching files from local workstations:

On the Attachment entry screens, if the file being attached has “TSCLIENT” in the path (or even the filename), the system will reject it and display this message:

Users still need access to the TSCLIENT area to be able to *download* files to their local workstations, such as files to be transmitted to 3rd parties.

1.1.1 Screens Using the New Feature

Table 1 The following screens use the new feature:

Task#	Description	Access the screen via the menu path:
13007	Asset Entry [Attachments]	Processing ▶ Acquisition Process ▶ [Maintain Asset Work File] [3 Attachments]
13050	Maintain Assets [Attachments]	Maintenance ▶ Maintain Assents ▶ [8 Attachment]

1.2 Weekly Error Check Report

ADMINS changed the weekly error check on attachments to report only selected broken attachments:

- a. If attachments are system generated, or
- b. If “**TSCLIENT**” is present in the file name

Note: Attachments from network common areas will not be error checked since each site establishes a network common area to which the **ADMINS** account running the process does not necessarily have access.

The weekly error check report is sent to the members of the **BROKENATT** email distribution list. To add users to the list, follow the instructions found in **SY-150 AUC Email Distribution Lists** in each Help Reference Library. If the weekly process identifies missing **TSCLIENT** attachments, contact the owner of the source document; if the missing attachments are system generated, contact support@admins.com.
