

# Fixed Assets

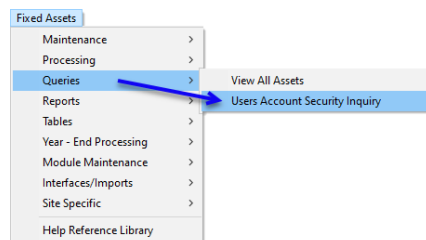

## Release Notes

September 2024

There were no changes *specific* to the **ADMINS Unified Community for Windows (AUC) FIXED ASSETS** system for September 2024. Users can now access their account security inquiries *across all modules*.

## 1 User Account Security Query

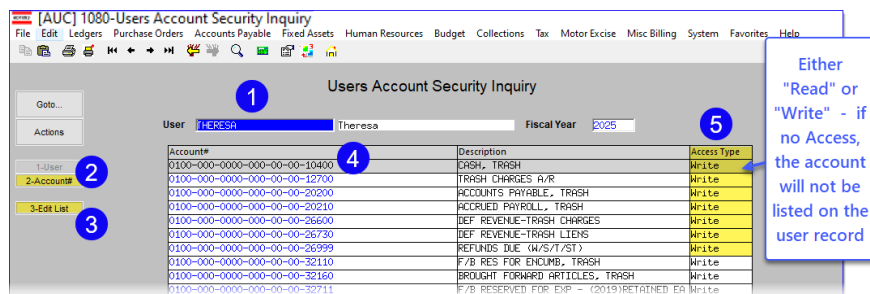

Users often ask why they cannot access a specific GL account. To clarify their access rights, **ADMINS** has included the account user security inquiry in all modules.

Find the information from the menu by selecting the module then:

Queries ► User Account Security Inquiry

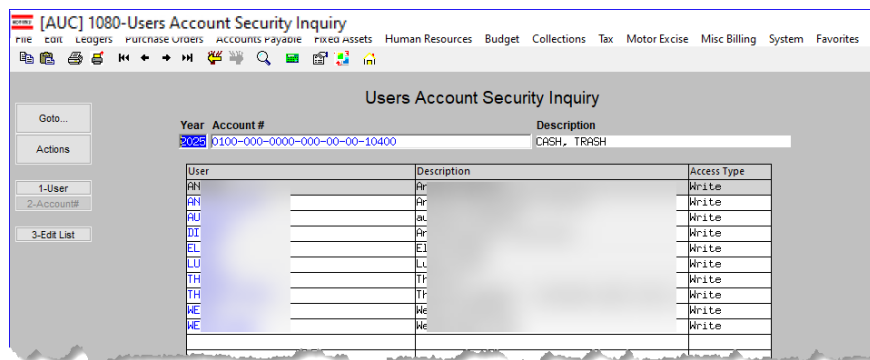

1. The username is shown at the top of the screen

The account Number is shown, with the description within the grid. The Access Type will be either “Write” or “Read” – if there is no access, the account will not appear in the user’s list.

When the screen is displayed by “Account #”, users and their permissions are listed.

2. Click on the [2 Account#] to re-display the screen, displaying the account number at the top of the screen, with a list of users and their respective access shown in the grid.

3. The [3 Edit List ] button will produce a listing; the username and fiscal year range are required fields. The list can be run as Excel® or PDF®.

Task 1081: User Account Security Edit List

User Account Security Edit List

Required: Enter Username

Required: Enter Fiscal Year Range (ex: YYYY) From:  To:

Run as ☐ Preview ☐ Print ☐ PDF ☐ CSV ☒ Excel

If Printing use Duplex ☒ Yes ☐ No
