MISCELLANEOUS BILLING

RELEASE NOTES – JUNE 2017

This document explains new product enhancements added to the ADMINS Unified Community for Windows **MISCELLANEOUS BILLING** system.

TABLE OF CONTENTS

1. TABLES ▶ Service Type ▶ [9 Copy Table] [Enhancement]

The **[9 Copy Table]** button on the **Service Type** table now includes a radio button to allow existing values in the "to New Bill Year" to be retained. Prior to the software update, using the Copy Table button would overwrite any existing new bill year values in the **Service Type** table. Select the **Yes** radio button to overwrite the **"New Year"** data; select **No** to leave the existing data in the "**New Year"** as is.

2. SCREEN DELAY [Fix]

Some sites with large data sets experienced a delay when viewing screens using scroll bars. The scroll bars were removed from multi-record screens to improve performance.
