

MOTOR VEHICLE EXCISE TAX BILLING

RELEASE NOTES – DECEMBER 2021

This document explains new product enhancements added to the **ADMINS Unified Community (AUC)** for Windows **MOTOR VEHICLE EXCISE TAX** module.

CONTENTS

1. LOCKBOX – 2 ND WARRANT FEE [FIX]	1
2. ATTACHMENTS [ENHANCEMENT].....	1

1. LOCKBOX – 2nd Warrant Fee [Fix]

Prior to the software update, when the deputy lockbox file was uploaded, it was not updating the 2nd Warrant fee correctly in the Motor Vehicle Excise Query screen. The upload did create the fee correctly in the Revenue Collections files. **ADMINS** corrected this, repaired the motor vehicle data, and installed the fix on affected sites in early October; it is mentioned here to document the change. This will work properly going forward.

2. ATTACHMENTS [Enhancement]

ADMINS changed the error checking on attachments to limit the check to [\\tsclient\C](#), so the system will prevent the attachment if a user tries to attach a file from the C drive of their local PC. If they are attaching to *another* mapped network drive shared from the local PC, the attachment will be allowed. System Administrators can minimize attachment loss by ensuring consistency in drive letter mapping; for example, push the drive mapping out via group policy for all users of AUC.

Please see the [September 2021 Release Notes](#) for a list of the screens this change will impact.
