

# June 2024

These are new product enhancements added to the **ADMINS Unified Community** (**AUC**) for Windows **MOTOR VEHICLE EXCISE TAX** module.

## 1 Login to the Training Area [Enhancement]

**ADMINS** provides a training area, which is a replica of the modules available on the live AUC application. (*The data in the training mode is refreshed on demand overnight by the superuser or on a regular basis, determined by each site.*) See <u>SY-175 Copy Live to Training</u> in the Help Reference Library for details.

ADMINS Unified Community - Please Sign In Х File Edit Help **ADMINS changed the location** of the Training Mode option Before to be above the Password Please Sign In: field, to help users select it Username THERESA assword before entering the password. Login Exit Reset Password

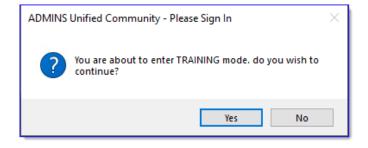

To access the Training area, select the **O** Yes option before typing in the password. After entering the password, you cannot switch the radio button for this session.

(The default is **O**No; typing the password and {**Enter**} will go to **Live**).

To proceed to Training mode, click on Yes. The prompt will default to Yes if the Training mode radio button is **O** Yes, and will go straight to training by pressing **{Enter}** (without clicking on any button).

Press No to log in to live.

### 2 Email Address Checking [Enhancement]

When a prompt **requires** an Email or a button triggers a prompt that **requires** for an email address (which is mandatory, not optional), it will verify if it follows a valid email format.

For example, "xxx@cccc.domain".

Here is an example of the error that will appear if an invalid email address is detected:

Click on the prompt and enter a valid email address on the Required field.

The system does not check if an **Optional** field contains a valid email address. In this example, there is no error message even though the email address is invalid. No email will be sent.
