3.1.9. Property Tax.....	7
3.1.10. Revenue Collections & Tax Title.....	7
3.1.11. System.....	8

1 FAVORITES SCREEN [New]

Select **Favorites** ► **User Favorites** to access this screen. Any **AUC** user may create a customized screen that presents up to 45 frequently-used tasks at the touch of a button.

1.1 Adding to the “Favorites” Selection Screen

1. Click on **[1 Add Favorite]**
2. Select the module for the new entry (only modules for which a user has menu access will appear in the list)
3. Select the Menu and task from the lookup – the list is sorted the way the menus are laid out in the AUC application to make it easy to find a given task in the lookup
4. Click on **[OK]**
5. Choose the location for the new button – there are 45 slots available
6. Click on **[OK]**

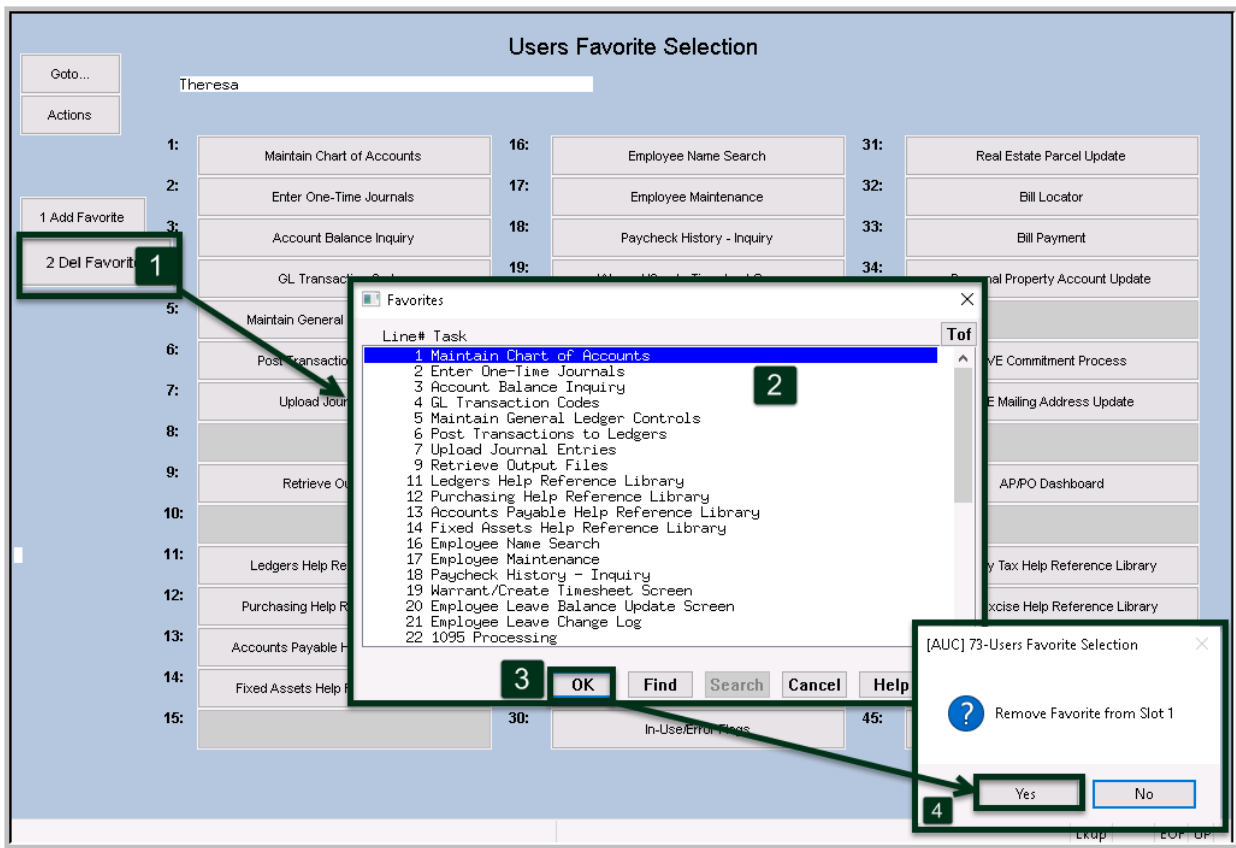

The screenshot shows the 'Users Favorite Selection' interface. A grid of 36 slots is visible. A 'Ledgers' menu is open, and a dialog box 'Available Menu Items for Ledgers' is shown with '1110 Transaction History' selected. A second dialog box 'Add Favorite' is open with '8' entered in the 'Enter Slot#' field.

Repeat steps one through six to build a customized menu.

1.2 Removing Previously Established Favorites

1. Click on **[2 Del Favorite]**
2. Select the Line number of the task that is no longer needed (in this example, Line #1 is selected for removal)
3. Click on **[OK]**
4. Click on **[Yes]** to confirm that the favorite will be removed from Slot #1

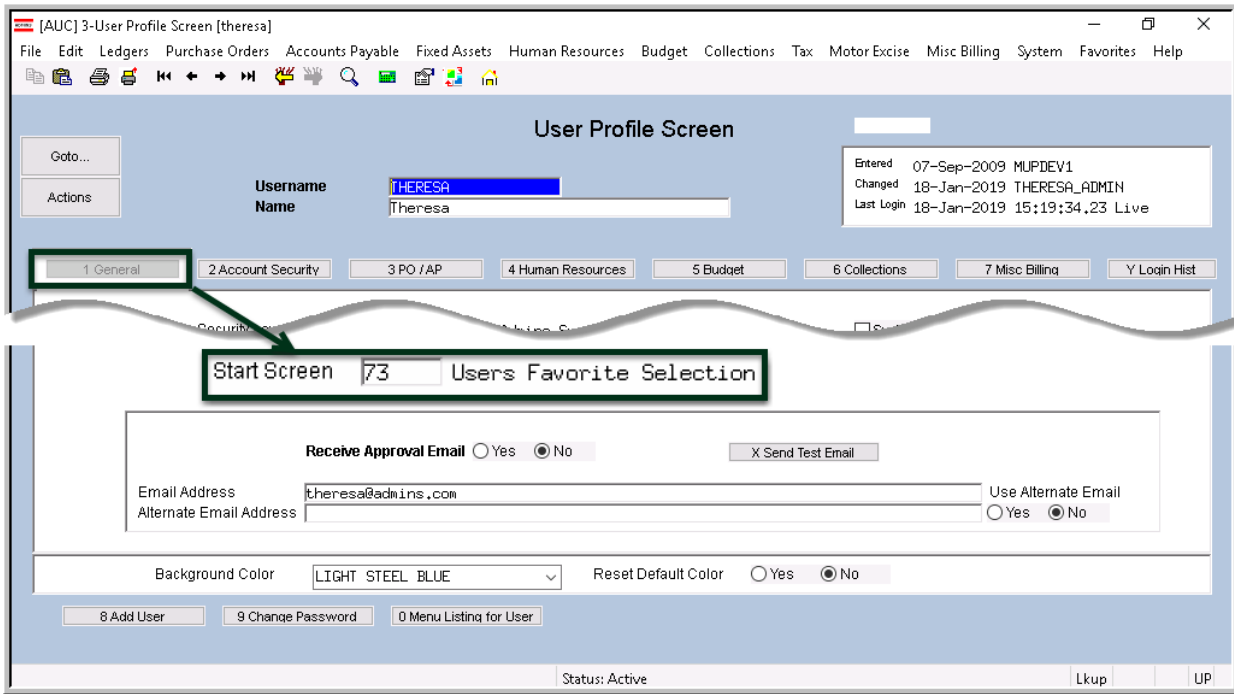

1.3 Re-Use a Slot

If old favorites are no longer needed, the slots may be re-used. Follow the instructions in section 1.1, steps 1 through 6. When adding a favorite, any existing link in the slot will be replaced with the new task or report.

1.4 Make the “Favorites” Screen (#73) the “Home” Screen

“Super Users” may set this screen (#73) as the “Home” screen (accessed via the  in the toolbar) for any user. **Select System ▶ User Menu ▶ User Profile** to access the setting on the [General] tab of each user’s profile screen.

1.4.1 What If?

Q. What if a user changes jobs and has buttons on the Favorites menu they should no longer access?

A. The “Favorites” screen is governed by menu security – if the menu item is not available, a Pop-Up message will indicate that no access is allowed. The user can remove or replace the **Favorite** in that slot.

2 REPORTS

A change was made for all reports. In the past, this progress bar image was displayed as reports were running. This was causing an issue with some **Excel®**

reports; **ADMINS** turned this feature off for now and will reinstate it at a later time.

[ADM-AUC-SY-8093]

2.1 Retrieve Output Files [Enhancement]

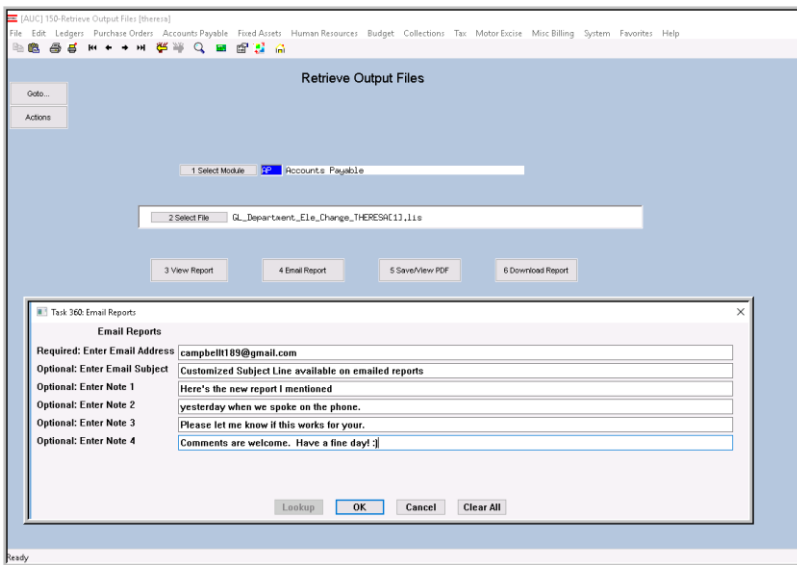

Figure 1 New Subject Line field is an optional field on the Email Reports form

ADMINS offers the Retrieve Output file feature on every module, allowing all AUC users to send a report to any valid email address. With this software update, ADMINS is pleased to announce a customized subject line for email reports.

Select the file and click on [4 Email Report]. Fill in the prompts as shown in Figure 1.

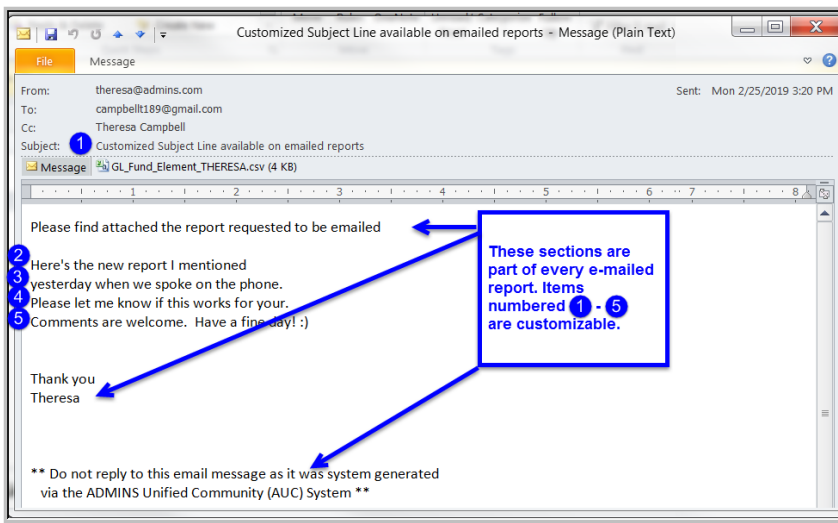

Figure 2 Email with attached file

The result is shown in Figure 2. Most output formats (.lis, .xml, .xls) are converted to PDF prior to emailing. If mailing a .csv file, the .csv format is retained.
