1. MAINTAIN TAX TITLE FEES

1.1. Navigation

The navigation on the **Collections ▶ Tax Title ▶ Original Taking ▶ Maintain Tax Title Fees** screen was enhanced to allow the user to more readily enter a new fee.

1.2. Edit List

The edit list was changed from landscape to portrait to conserve paper. The font and column sizes remain the same.

2. INQUIRY SCREEN NAVIGATION

There was an issue with the navigation on the inquiry screen when there were no attachments for a particular parcel. If the attachments tab was clicked, the next record is presented. This was fixed so that if there are no attachments there is a blank record for each parcel in tax title so that the system knows where to land.

3. REDEMPTION CERTIFICATES

Typographical errors were corrected on the certificates of redemption and the text was reformatted to make better use of the page.

4. TAX TAKING

There was a fix to the Instrument of Tax Taking step which allowed it to complete so the next step would then be visible. This was patched to sites on May 28, 2015.
