# 1. QUICK REPORT SELECTOR [NEW]

ADMINS is pleased to announce a new system-wide feature available across all AUC modules.

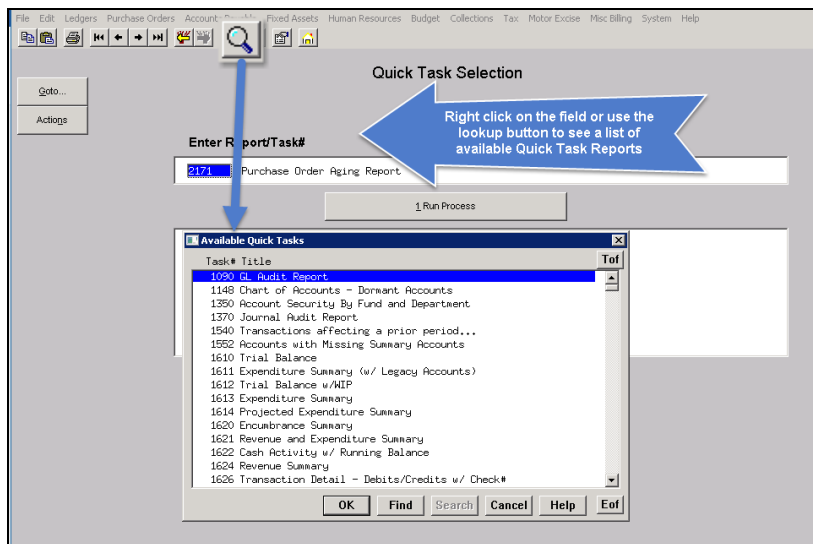

A new toolbar button has been added to AUC. This feature will allow a user to run any report in AUC quickly from any module rather than having to go to the report library for each module.

From any screen, click the  toolbar button and type in the report# as displayed on the top left hand corner of the report and click **Run Report**. For example, the 2171 report shown below was run in August.

To re-run the report, use the new button on the toolbar and type in 2171. If you do not know the report #, open a report lookup window by either a right-click of the mouse on the **Enter Report/Task #** field or by clicking on the magnifying glass lookup button to select a report. The name of the report will also be displayed to allow the user to confirm the selection. Click on the report and then click on the **[OK]** button.

This process checks if you have permission to run the report. If you don't have permission you will see the following message:

## 2. NEW BUTTON TO SHOW “HIDDEN” REPORTS [NEW-V9.2]

Some users notified ADMINS that reports become “hidden” behind the screen. Other users reported that they are trying to do a bill re-print and get an error because they already have a bill re-print open. To show all reports open in AUC and maintain the security of a restricted desktop, a new button is introduced with this update.

The new Toolbar button will display a **View Open Windows** screen, and allow the user to select or close a report(s) or window.

### 3. CRYSTAL REPORT TITLES UPDATED [NEW]

To allow users to identify which crystal report is listed in the **View Open Windows** screen described in section 2, titles were added to all crystal reports. This change may be noticed when displaying checks, bills and other reports in the **ADMINS Crystal Reports Viewer (AdmCrv)** window prior to printing. The upper right corner of the window will now show the report title and the **AdmCrv** text.

### 4. EMAIL USERS [NEW]

From **any** module, select **Module Maintenance ▶ Email Users**. This screen allows the entry of non-AUC user email addresses so that persons with a valid email address may receive reports from AUC.

The **[1 Add User]** button presents a prompt. Prior to the software update, the prompt asked for neither an email address nor an alternate email address.

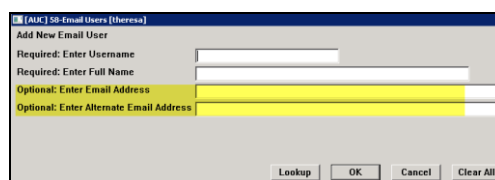

Figure 4 After–Optional Email Address Entry

Now, users may enter the email address via the new prompt, or enter the email addresses directly on the screen once the Username and Name have been added via the prompt.

**Note:** if entering an alternate email address in the prompt, the alternate will be selected for use. That may be changed by selecting the “No” radio button on the Email Users screen for that entry.

More information regarding this screen is available in the **Accounts Payable ▶ Help Reference Library ▶ AP–865 External E-mail Addresses**.

## 5. SCREEN DELAY [Fix]

Some sites with large data sets experienced a delay when viewing screens using scroll bars. The scroll bars were removed from multi-record screens to improve performance.
