

AUC

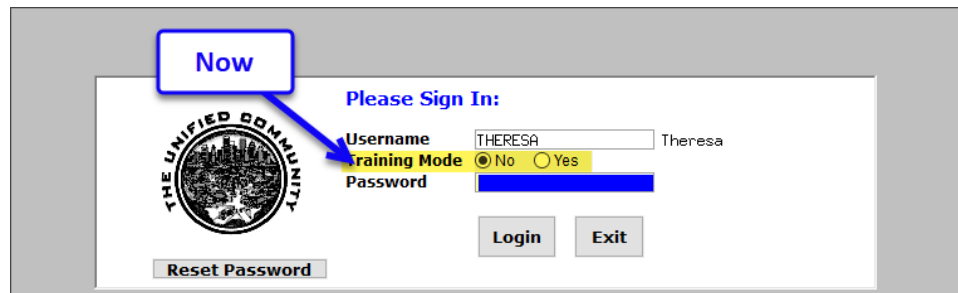

SY-125 TRAINING MODE

ADMINS has a training area, which is a copy of the modules that are accessible on the live AUC application. (The data in the training mode is updated on request overnight by the superuser or on a routine basis, decided by each site.) See [SY-175 Copy Live to Training](#) in the *Help Reference Library* for details.

ADMINS changed the location of the **Training Mode** option to be **above** the Password field, to help users select it before entering the password.

To access the Training area, select the **Yes** option before typing in the password. After entering the password, you cannot switch the radio button for this session.

(The default is **No**; typing the password and **{Enter}** will go to **Live**).

To proceed to Training mode, click on . The prompt will automatically say “yes” if the Training mode radio button is set to **Yes**, and you can go straight to training by pressing **{Enter}** (without clicking on any button).

Press to log in to live.
