

Conserv Opens its Seventeenth Location & Enters into an Agreement with Posey Wildlife Services of Chicago, IL.

Conserv continues to expand throughout the United States as it opened its seventeenth location today. Conserv has entered into an agreement with Posey Wildlife Services of Chicago, IL. Posey will be operating as Conserv Pest & Wildlife Services and will be providing Pest Control, Wildlife Control, and Insulation Services throughout the greater Chicago area and surrounding suburban neighborhoods. Posey has a great reputation for providing wildlife control and pest control in the mid-western United States.

In March of this year, Conserv began rolling out a plan to be nationwide by December. The agreement with Posey marks the 14th location opened for the Conserv Brand this year. For the remainder of 2020, Conserv has committed to opening eighty additional service territories through partnerships, licensing, and acquisitions.

Conserv is seeking wildlife control businesses which it can assist in capital appreciation while being tucked into its brand. Conserv is interested in wildlife control operators who run both small one-man shops and larger, multi-state operations.

Kyle Waltz, CEO says “We are extremely excited about Conserv in Chicago and what we can accomplish together with Posey Wildlife Services. Posey’s experience in the industry and strong reputation will certainly help our company see amazing growth and new opportunities.”

Thinking of Selling or Starting a Wildlife Control Business?

Do you own a wildlife control business? Are you interested in selling all or a part of your company for growth capital or to reduce risk? Are you interested in starting a wildlife control business? If so, please contact us.
