

Yellowstone National Park App

Plan your visit to Yellowstone National Park with the official National Park Service app and discover the stories behind the scenery.

Explore the world's first national park digitally, either by navigating a map or by selecting a collection of related features. Find useful information about visitor centers, places to stay and eat, and shopping and services throughout the park.

Map

Interact with the official National Park Service map of Yellowstone National Park, which features large font sizes, illustrated trails and services, scenic highlights, and multiple zoom levels. By tapping the "Locate me" icon, you will always know where you are.

Explore

Prefer to discover park stories by exploring a collection of similar features? Head over to the Explore section of the app, where you can scroll through visual lists of natural features, historic locations, and visitor services.

Tours

Discover rich natural and cultural resources with self-guided walking tours.

Events

Get up-to-date information from the National Park Service about what is happening in Yellowstone, including links to geyser predictions and road construction.

Accessibility

Audio-described sites and alternative text for images, combined with iOS' built-in accessibility features. This app includes up-to-date **accessibility information for facilities and some trails** in the park.

Using the App

Cellular service within the park is extremely limited. In order to make use of the app while in Yellowstone, follow these simple steps before you arrive:

1. Download the app.
2. In the app, select the "Settings" option under the "More" section.
3. Tap the gray gear icon labeled "Download Content".

By doing this, all of the app content will be available for use in the park, and you can still take advantage of GPS location on the map.

Download the App The app is free and available on:

the App Store
