- A quick trip out toward the Northeast Entrance through **Lamar Valley** is worth the time if you have it, especially in early summer (June) or early Fall (September). There are a lot of wildlife out this way - a good place to see wolves - but during the middle of summer there is usually just bison.
- Just a few miles is all that's needed. Once you see some wildlife, return to **Tower-Roosevelt** and continue **south** on Chittenden Road toward **Canyon**.
- If you have time, this is a nice drive and you will see some amazing country driving back toward the Northeast Entrance, toward **Lamar Valley**. Add another 2 hours to your trip if you do, but it is certainly worth it.
